CONTENTS: VOLUME 41

JANUARY 1978

CLINICAL STUDIES

- 1 Approach to the Estimation of Myocardial Infarct Size by Analysis of Precordial S-T Segment and R Wave Maps. Hartmut Henning, Thordur Hardarson, Gary Francis, Robert A. O'Rourke, William Ryan and John Ross, Jr.
- 9 Computerized Orthogonal Electrocardiogram: Relation of QRS Forces to Left Ventricular Ejection Fraction. Martin G. Gottwik, Alfred F. Parisi, Joseph Askenazi and Donald McCaughan
- 14 Effects of Postextrasystolic Potentiation on Systolic Time Intervals. Narasimhan Ranganathan, Vahe Sivacyan and Robert Chisholm
- 23 The U Wave and Aberrant Intraventricular Conduction. Further Evidence for the Purkinje Repolarization Theory on Genesis of the U Wave. Yoshio Watanabe and Hitoshi Toda
- 32 Valve Origin of the Aortic Incisura. Hani N. Sabbah and Paul D. Stein
- 39 Myocardial Scintigraphy With Technetium-99m Pyrophosphate During the Early Phase of Acute Infarction. B. Leonard Holman, Michael Lesch and Joseph S. Alpert
- 43 Thallium-201 Myocardial Perfusion Scintigraphy for the Clinical Clarification of Normal, Abnormal and Equivocal Electrocardiographic Stress Tests. Elias H. Botvinick, Michael R. Taradash, David M. Shames and William W. Parmley
- 52 Hemodynamics at Rest and During Supine and Sitting Bicycle Exercise in Normal Subjects. Udho Thadani and John O. Parker
- 60 Abnormal Platelet Survival Time in Men With Myocardial Infarction and Normal Coronary Arteriogram. Peter Steele, Joseph Rainwater and Robert Vogel

EXPERIMENTAL STUDIES

- 63 Effects of Ionophore RO 2-2985 (X537A) on Conscious Dogs in Experimentally Induced Hemorrhagic Hypotension. Mortality, Systemic Pressure and Renal and Coronary Blood Flow. Henry G. Hanley, Julie A. Swain, Craig J. Hartley, Robert M. Lewis and Arnold Schwartz

PEDIATRIC CARDIOLOGY

- 69 Bruce Treadmill Test in Children: Normal Values in a Clinic Population. Gordon R. Cumming, Dayle Everatt and Laverne Hastman
- 76 Surgical Significance of the Coronary Arterial Anatomy in Truncus Arteriosus Communis. Kenneth R. Anderson, Dwight C. McGoon and J. T. Lie

REPORTS ON THERAPY

- 82 Effects of Long-Term Oral Administration of Isosorbide Dinitrate on the Antianginal Response to Nitroglycerin. Absence of Nitrate Cross-Tolerance and Self-Tolerance Shown by Exercise Testing. Garrett Lee, Dean T. Mason and Anthony N. DeMaria
- 88 Effects of Ouabain on Coronary and Systemic Vascular Resistance and Myocardial Oxygen Consumption in Patients Without Heart Failure. Henry DeMots, Shahbudin H. Rahimtoola, John H. McAnulty and George A. Porter

- 94 Termination of Ventricular Tachycardia With Bursts of Rapid Ventricular Pacing. John D. Fisher, Rahul Mehra and Seymour Furman

CASE REPORTS

- 103 Aortic Root Dissection Complicating Coronary Bypass Surgery. W. Jay Nicholson, I. Sylvia Crawley, R. Bruce Logue, Edward R. Dorney, B. Woodfin Cobbs and Charles R. Hatcher, Jr.

EDITORIAL

- 108 Origin of the Second Heart Sound: Clinical Relevance of New Observations. Paul D. Stein and Hani N. Sabbah

BETHESDA CONFERENCE REPORT: OPTIMAL ELECTROCARDIOGRAPHY

- 111 Participants
- 113 Optimal Electrocardiography—1977: Introductory Comments. Dean T. Mason
- 115 First the Electrocardiogram—Then What? A System for Decision-Making by Computer. Homer R. Warner
- 119 Electrocardiography and Electrophysiology Are (or Should Be) Friends. Harry A. Fozzard
- 121 Present Status of Computer Interpretation of the Electrocardiogram: A 20 Year Overview. Cesar A. Caceres
- 126 The Quest for Optimal Electrocardiography. Leo G. Horan
- 130 Task Force I: Standardization of Terminology and Interpretation
- 145 Task Force IA: Development of a Data Base for Electrocardiographic Use
- 146 Task Force II: Quality of Electrocardiographic Records
- 158 Task Force III: Computers in Diagnostic Electrocardiography
- 170 Task Force IV: Use of Electrocardiograms in Practice
- 175 Task Force V: Cost Effectiveness of the Electrocardiogram
- 184 Task Force VI: Future Directions in Electrocardiography

SPECIAL DEPARTMENTS

- 192 Books Received
- 194 American College of Cardiology News

CLINICAL STUDIES

- 197 **Identification of High Risk Subsets of Acute Myocardial Infarction. Derived from the Myocardial Infarction Research Units Cooperative Study Data Bank.** Karl T. Weber, Joseph S. Janicki, Richard O. Russell and Charles E. Rackley
- 204 **Coronary Anatomy and Arteriography in Patients With Unstable Angina Pectoris.** Harold W. Alison, Richard O. Russell, Jr., John A. Mantle, Nicholas T. Kouchoukos and Charles E. Rackley
- 210 **Tortuosity as an Index of the Age and Diameter Increase of Coronary Collateral Vessels in Patients After Acute Myocardial Infarction.** Grover M. Hutchins, Martin M. Miner and Bernadine H. Bulkley
- 216 **Angiographic Evaluation of the Natural History of Normal Coronary Arteries and Mild Coronary Atherosclerosis.** Baudouin Marchandise, Martial G. Bourassa, Bernard R. Chaitman and Jacques Lesperance
- 221 **Incidence and Significance of Decreases in Systolic Blood Pressure During Graded Treadmill Exercise Testing.** Stephen N. Morris, John F. Phillips, John W. Jordan and Paul L. McHenry
- 227 **Significance of Chest Pain During Treadmill Exercise: Correlation With Coronary Events.** John P. Cole and Myrvin H. Ellestad
- 233 **Plasma Norepinephrine in Congestive Heart Failure.** James A. Thomas and Bernard H. Marks

EXPERIMENTAL STUDIES

- 244 **Electrophysiologic Studies on Atrioventricular Nodal Wenckebach Cycles.** Michael B. Simson, Joseph F. Spear and E. Neil Moore
- 259 **Myocardial Hemorrhage After Coronary Reperfusion in Pigs.** Robert J. Capone and Albert S. Most

METHODS

- 267 **Noninvasive Assessment of Coronary Stenoses by Myocardial Perfusion Imaging During Pharmacologic Coronary Vasodilatation. I. Physiologic Basis and Experimental Validation.** K. Lance Gould
- 279 **Noninvasive Assessment of Coronary Stenoses by Myocardial Imaging During Pharmacologic Coronary Vasodilatation. II. Clinical Methodology and Feasibility.** K. Lance Gould, R. Jeffrey Westcott, Peter C. Albro and Glen W. Hamilton

PEDIATRIC CARDIOLOGY

- 288 **New Serial Contrast Technique for Assessment of Left to Right Shunting Patent Ductus Arteriosus in the Neonate.** Hugh D. Allen, David J. Sahn and Stanley J. Goldberg
- 295 **Abnormal Right Ventricular Size and Ventricular Septal Motion After Atrial Septal Defect Closure. Etiology and Functional Significance.** Alan S. Pearlman, Jeffrey S. Borer, Chester E. Clark, Walter L. Henry, David R. Redwood, Andrew G. Morrow and Stephen E. Epstein. *With the technical assistance of Cora Burn, RN, Estelle Cohen and F. Joyce McKay, RN*

REPORTS ON THERAPY

- 302 **Nitroglycerin-Induced Improvement in Exercise Tolerance and Hemodynamics in Patients With Chronic Rheumatic Heart Valve Disease.** Jeffrey S. Borer, David R. Redwood, Samuel B. Itskowitz, Robert E. Goldstein and Stephen E. Epstein

- 308 **Atrial Pacing for Cardioversion of Atrial Flutter in Digitalized Patients.** Gopal Das, Kamanahally M. Anand, Kaur Ankineedu, Triam Chinnavaso, Frederick N. Talmers and Arnold M. Weisler

- 313 **Multiple Bolus Technique for Lidocaine Administration During the First Hours of an Acute Myocardial Infarction.** Milford G. Wyman, David Lalka, Lucille Hammersmith, David S. Cannom and Bruce N. Goldreyer

- 318 **Effects of Digitalis on Sinus Nodal Function in Patients With Sick Sinus Syndrome.** Zakaiddin Vera, Richard R. Miller, Don McMillin and Dean T. Mason

- 324 **Effects of Morphine Sulfate on Human Coronary Blood Flow.** David M. Leaman, Stephen H. Nellis, Robert Zelis and John M. Field

REVIEW

- 327 **The Myocardial Supply:Demand Ratio—A Critical Review.** Julien I. E. Hoffman and Gerald D. Buckberg

DIAGNOSTIC SHELF

- 333 **Group Teaching of Auscultation. Use of a New Wireless Stethoscope-Type Headphone.** Antonio C. deLeon, Jr., W. Proctor Harvey, David Canfield and Edward Johnson

CASE REPORTS

- 336 **Successful Treatment of Drug-Resistant Atrial Tachycardia and Intractable Congestive Heart Failure With Permanent Coupled Atrial Pacing.** Emanuel R. Arbel, Howard C. Cohen, Richard Langendorf and Gerald Glick
- 341 **Use of a Double Atrial-Triggered Standby Pacemaker System for a Patient With a Biventricular Bypass Heterotopic Cardiac Homograft.** Brian M. Kennelly, Laurence W. Piller, Peter P. Tarjan, Jacques G. Losman, Christiaan N. Barnard and Walter Beck

EDITORIALS

- 345 **Perplexities and Complexities Concerning the Myocardial Infarction Border Zone and Its Salvage.** Richard H. Helfant, Vidya S. Banka and Monty M. Bodenheimer

SPECIAL DEPARTMENTS

- 348 **Letters to the Editor**
Prophylactic Permanent Pacing—S. Amikam, E. Riss, J. M. Atkins, et al.

Vectorcardiography and Body Surface Isopotential Mapping to Detect Old Myocardial Infarction—J. E. Madias and G. M. Vincent

Specificity and Sensitivity of Technetium-99m Pyrophosphate Myocardial Imaging in Acute Myocardial Infarction—M. Ahmad, D. S. Berman and D. T. Mason

Abnormal P Wave Pattern in Reye's Syndrome—J. Isner, B. Guller and L. P. Scott

Statistical Considerations in Determination of Ventricular Volume From Echocardiographic and Angiographic Data—R. Simon, L. Norton and R. Katz

- 353 **Abstracts of Papers to be Presented at the 27th Annual Scientific Session of the American College of Cardiology, Anaheim, California, March 6 to 9, 1978**

- 448 **Author Index: Abstracts**

- 453 **Subject Index: Abstracts**

- 464 **American College of Cardiology News**

CONTENTS: VOLUME 41

MARCH 1978

CLINICAL STUDIES

- 469 **Progressive Nature of Myocardial Injury in Selected Patients With Cardiogenic Shock.** Allen L. Gutovitz, Burton E. Sobel and Robert Roberts
- 476 **Hemodynamics and Coronary Angiography in Idiopathic Hypertrophic Subaortic Stenosis.** Hector Lardani, Jose A. Serrano and Ramon J. Villamil
- 482 **Aululoortic Ectasia: Angiographic, Hemodynamic and Clinical Comparison With Aortic Valve Insufficiency.** David K. Lemon and Carl W. White
- 487 **Left Ventricular Performance in Patients With Atrial Septal Defect: Evaluation With Noninvasive Methods.** Kenneth L. Wanderman, Ilya Ovsyshcher and Mosche Gueron
- 494 **Value of the QRS Complex in Assessing Left Ventricular Ejection Fraction.** Joseph Askenazi, Alfred F. Parisi, Peter F. Cohn, William B. Freedman and Eugene Braunwald
- 500 **Atrioventricular Block: Natural History After Permanent Ventricular Pacing.** Arthur B. Simon and Alan E. Zlot
- 508 **Thromboembolism in Mitral Porcine Valve Recipients.** W. Allan Edmiston, Earl C. Harrison, Gregory F. Duick, William Parnassus and Francis Y. K. Lau
- 512 **Tissue Valve Replacement of Prosthetic Heart Valves for Thromboembolism.** Bruce A. Reitz, Edward B. Stinson, Randall B. Griepp and Norman E. Shumway

EXPERIMENTAL STUDIES

- 516 **Central Neurochemical Factors Related to Serotonin Metabolism and Cardiac Ventricular Vulnerability for Repetitive Electrical Activity.** Stephen H. Rabinowitz and Bernard Lown
- 523 **Experimental Myocardial Infarction. XVI. The Detection of Inotropic Contractile Reserve With Postextrasystolic Potentiation in Acutely Ischemic Canine Myocardium.** William E. Boden, Chang-Seng Liang, Carl S. Apstein and William B. Hood, Jr.

METHODS

- 531 **Variability in Sequential Measures of Left Ventricular Performance Assessed With Radionuclide Angiocardiography.** Robert C. Marshall, Harvey J. Berger, Lawrence A. Reduto, Alexander Gottschalk and Barry L. Zaret
- 537 **Measurement of Atrial Septal Defect During Cardiac Catheterization. Experimental and Clinical Results.** Terry D. King, Sandra L. Thompson and Noel L. Mills

PEDIATRIC CARDIOLOGY

- 543 **Echocardiographic Assessment of Left Ventricular Outflow Tract in d-Transposition of the Great Arteries.** Kalim U. Aziz, Milton H. Paul and Alexander J. Muster
- 552 **His Bundle Electrogram After Intracardiac Repair of Tetralogy of Fallot. Analysis of Data in 59 Patients.** Thomas J. Hougen, Macdonald Dick, II, Michael D. Freed and John F. Keane
- 559 **Wolff-Parkinson-White Syndrome in the Neonate.** Grace S. Wolff, Joak Han and Joel Curran

STUDIES IN HYPERTENSION

- 564 **Hemodynamics of Postmyocardial Revascularization Hypertension.** Fetnat M. Fouad, F. George Estafanous and Robert C. Tarazi
- 570 **Alpha and Beta Adrenergic Blockade With Orally Administered Labetalol in Hypertension. Studies on Blood Volume, Plasma Renin and Aldosterone and Catecholamine Excretion.** Peter Weidmann, Rudolf De Châtel, Walter H. Ziegler, Josef Flammer and François Reubi

REPORTS ON THERAPY

- 577 **Orally Administered Prajmalium Bitartrate in Acute and Chronic Ventricular Arrhythmias.** Wulf-Dirk Bussmann, Erwin Müller, Hans-Jürgen Hänel and Martin Kaltenbach
- 584 **Coronary Revascularization Under Age 40 Years: Risk Factors and Results of Surgery.** Hillel Laks, George C. Kaiser, Hendrick B. Barner, John E. Codd and Vallee I. Willman
- 590 **Management of Hypercholesterolemia: Evaluation of Practical Clinical Approaches in Healthy Young Adults.** Russell V. Luepker, L. Kent Smith, Sarah S. Rothchild, Albert Gillis, Leon Kochman and J. Richard Warbasse

DIAGNOSTIC SHELF

- 597 **Echocardiographic Features of Total Anomalous Pulmonary Venous Connection to the Coronary Sinus.** Garth S. Orsmond, Herbert D. Ruttenberg, F. Blanton Bessinger and James H. Moller

CASE REPORTS

- 602 **Elective Mapping and Surgical Division of the Bundle of Kent in a Patient With Ebstein's Anomaly Who Required Tricuspid Valve Replacement.** John D. Kugler, Paul C. Gillette, Desmond F. Duff, Denton A. Cooley and Dan G. McNamara

EDUCATION UPDATE

- 606 **Adult Cardiovascular Training Programs in the United States.** American College of Cardiology

SPECIAL DEPARTMENTS

- 613 **Letters to the Editor**
Cardiogenic Shock in the Coronary Care Unit—R. P. Lasser, H. N. Chang and L. A. Kuhn
Subclavian Approach for Cardiac Catheterization With Balloon-Tipped Pulmonary Arterial Catheter—T. M. Brown, Jr. and M. H. Nadjmabadi
Anomalous Left Coronary Artery—G. G. Cayler and D. A. Cooley
History of Cardiac Pacing—I and II—P. P. Tarjan and V. Parsonnet
Myocardial Rupture—A. Cordeiro, G. S. Wagner and D. B. Hackel
Echocardiogram in Mitral Stenosis—J. H. Horgan, A. F. Parisi, D. E. Tow, et al.
Cusp Separation in Aortic Stenosis—K. E. Hammermeister, S. Chang, S. Clements, et al.
Left Ventricular Compliance—F. Fantini, A. Michelucci and W. H. Gaasch
Electrocardiographic Left Atrial Enlargement Versus Interatrial Conduction Defect—O. Zonerach, S. Zonerach, M. E. Josephson, et al.
Abnormal Septal Motion After Coronary Bypass Surgery—M. Lengyel, A. Righetti, M. H. Crawford, et al.
Internal Mammary Artery Grafts—N. T. Kouchoukos, F. D. Loop and W. C. Sheldon
A-V Block in Prinzmetal's Angina—P. F. Fazzini, F. Marchi, K. M. Rosen, et al.
Dobutamine in Acute Myocardial Infarction—D. S. Ruffett, T. A. Gillespie, H. D. Ambros, et al.
Obesity and Ischemic Heart Disease—S. Stern, S. W. Rabkin and F. A. L. Mathewson
- 623 **American College of Cardiology News**

CLINICAL STUDIES

- 631 **Ergonovine Maleate Provocative Test for Coronary Arterial Spasm.** Frederick A. Heupler, Jr., William L. Proudfit, Mehdi Razavi, Earl K. Shirey, Richard Greenstreet and William C. Sheldon
- 641 **Clinical Assessment of Serum Myosin Light-Chains in the Diagnosis of Acute Myocardial Infarction.** Charles A. Trahern, J. Brewster Gere, Gary H. Krauth and Darlene A. Bigham
- 646 **Shape of the Human Cardiac Ventricles.** Grover M. Hutchins, Bernadine H. Bulkley, G. William Moore, Mark A. Piasio and Frederick T. Lohr
- 655 **Continuous Ventricular Dimensions in Man During Supine Exercise and Recovery. An Echocardiographic Study.** Richard A. Stein, Donald Michielli, Edward L. Fox and Norman Krasnow
- 661 **Myocardial Structure and Function in Patients With Aortic Valve Disease and Their Relation to Postoperative Results.** Franz Schwarz, Willem Flameng, Jutta Schaper, Friederike Langebarts, Jochen Thormann, Fritz Ehrlein and Martin Schlieper
- 670 **Diagnostic Value of Exercise-Induced S-T Segment Depression in Patients With Right Bundle Branch Block.** Toshihide Tanaka, Mark J. Friedman, Robert D. Okada, Larry J. Buckels and Frank I. Marcus
- 674 **Early Identification of Patients Developing Late In-Hospital Ventricular Fibrillation After Discharge From the Coronary Care Unit. A 5 1/2 Year Retrospective and Prospective Study of 1,897 Patients.** K. I. Lie, Koen L. Liem, Reinier M. Schuilenberg, George K. David and Dirk Durrer
- 678 **Initiation of Repetitive Ventricular Depolarizations by Relatively Late Premature Complexes in Patients With Acute Myocardial Infarction.** Robert Roberts, H. Dieter Ambos, Christopher W. Loh and Burton E. Sobel
- 684 **Time-Related Changes in the Q-T Interval in Acute Myocardial Infarction: Possible Relation to Local Hypocalcemia.** Robert M. Doroghazi and Rory Childers

EXPERIMENTAL STUDIES

- 689 **Improvement by Propranolol of Regional Myocardial Dysfunction and Abnormal Coronary Flow Pattern in Conscious Dogs With Coronary Narrowing.** Hitonobu Tomoike, John Ross, Jr., Dean Franklin, Bertrand Crozatier, Daniel McKown and W. Scott Kemper
- 697 **Recording From the Body Surface of Arrhythmogenic Ventricular Activity During the S-T Segment.** Edward J. Berbari, Benjamin J. Scherlag, Ronald R. Hope and Ralph Lazzara
- 703 **Electrophysiologic Properties of a New Antiarrhythmic Drug—Tocainide.** E. Neil Moore, Joseph F. Spear, Leonard N. Horowitz, Hal S. Feldman and Robert A. Moller

METHODS

- 710 **"Ventricular Function Curve" From a Single Diagnostic Left Ventriculogram: Technique, Results and Value.** Mark J. Morton, John H. McAnulty and Shahbudin H. Rahimtoola
- 718 **Quantitative Radionuclide Angiography in the Right Anterior Oblique View: Comparison With Contrast Ventriculography.** Monty M. Bodenheimer, Vidya S. Banka, Colleen M. Fooshee, George A. Hermann and Richard H. Helfant

- 726 **Estimation of Left Ventricular Volumes in Man From Biplane Cineangiograms Filmed in Oblique Projections.** Joshua Wynne, Laurence H. Green, Tift Mann, David Levin and William Grossman
- 733 **Modification of Intraaortic Balloon Catheter to Permit Introduction by Cardiac Catheterization Techniques.** Steven Wolfson, Dennis L. Karsh, Rene A. Langou, Alexander S. Geha, Graeme L. Hammond and Lawrence S. Cohen

PEDIATRIC CARDIOLOGY

- 739 **Ebstein's Anomaly of the Heart Revisited.** Kenneth R. Anderson and J. T. Lie
- 746 **Discrete Subaortic Stenosis in Newfoundland Dogs: Association of Infective Endocarditis.** Wainjorn F. T. Muna, Victor J. Ferrans, Joseph E. Pierce and William C. Roberts
- 755 **Pathogenesis of Persistent Truncus Arteriosus in Light of Observations Made in a Dog Embryo With the Anomaly.** Lodewyk H. S. Van Mierop, Donald F. Patterson and William R. Schnarr

REPORTS ON THERAPY

- 763 **Electrophysiologic Effects of Hydralazine on Sinoatrial Function in Patients With Sick Sinus Node Syndrome.** Toby R. Engel, Cheryl Leddy, Ana Del Gonzalez, Steven G. Meister and William S. Frankl
- 770 **Single and Multiple Dose Pharmacokinetics of Oral Quinidine Sulfate and Gluconate.** Hermann R. Ochs, David J. Greenblatt, Elaine Woo, Kate Franke, Henry J. Pfeifer and Thomas W. Smith
- 778 **Propranolol Rebound—A Retrospective Study.** Robert A. Shiroff, James Mathis, Robert Zelis, Dennis W. Schneek, Joseph D. Babb, David M. Leaman and Arthur H. Hayes, Jr.

CASE REPORTS

- 781 **Effusive-Constrictive Hemodynamic Pattern Due to Neoplastic Involvement of the Pericardium.** Tift Mann, Bruce R. Brodie, William Grossman and Lambert McLaurin

EDITORIAL

- 787 **Coronary Arterial Spasm and Provocative Testing in Ischemic Heart Disease.** Richard H. Helfant

SPECIAL DEPARTMENTS

- 790 **Letters to the Editor**
Prophylactic Coronary Bypass Surgery—R. J. Hall, K. Cohn and A. Selzer
Cardiac Output and Pulmonary Vascular Resistance in Hypertension—K. R. T. Tyson and J. M. Atkins
Quinidine Dementia—G. J. Gilbert
Propranolol, P₅₀ and Oxygen Delivery—S. H. Humphrey, B. R. Alter and S. Wolfson, et al.
Wrapping of Aortic Aneurysm—F. Robicsek and C. E. Anagnostopoulos
Heart Rate After Atropine—A. J. Swaminathan and W. F. C. Duvernoy
Reduction of Sudden Death by Aortocoronary Bypass Surgery—I and II—T. A. Preston, D. A. Spodick and H. N. Hultgren, et al.
- 799 **American College of Cardiology News**

CONTENTS: VOLUME 41

MAY 1, 1978

CLINICAL STUDIES

- 803 **Sudden Death in Patients With Hypertrophic Cardiomyopathy: Characterization of 26 Patients Without Functional Limitation.** Barry J. Maron, William C. Roberts, Jesse E. Edwards, Hugh A. McAllister Jr., Daniel D. Foley and Stephen E. Epstein
- 811 **Electrophysiologic Findings in Patients With Idiopathic Hypertrophic Subaortic Stenosis.** Robert E. Ingham, Jay W. Mason, Ronald M. Rossen, Daniel J. Goodman and Donald C. Harrison
- 817 **Inferior Myocardial Infarction as a Cause of Asymmetric Septal Hypertrophy. An Echocardiographic Study.** Hartmut Henning, Robert A. O'Rourke, Michael H. Crawford, Alberto Righetti and Joel S. Karliner
- 823 **Early Systolic Closure of the Aortic Valve in Patients With Hypertrophic Subaortic Stenosis and Discrete Subaortic Stenosis. Correlation With Preoperative and Postoperative Hemodynamics.** Zvonimir Krajcer, Fulvio Orzan, Leonard W. Pechacek, Efrain Garcia and Robert D. Leachman
- 830 **Determinants of the Amplitude of the Aortic Component of the Second Heart Sound in Aortic Stenosis.** Hani N. Sabbah, Fareed Khaja, Daniel T. Anbe, Gordon M. Folger, Jr. and Paul D. Stein
- 836 **Assessment of Mitral Valve E Point-Septal Separation as an Index of Left Ventricular Performance in Patients With Acute and Previous Myocardial Infarction.** Wilbur Lew, Hartmut Henning, Heinz Schelbert and Joel S. Karliner
- 846 **Significance of Changes in R Wave Amplitude During Treadmill Stress Testing: Angiographic Correlation.** Peter E. Bonoris, Paul S. Greenberg, Mark J. Castellani and Myrvin H. Ellestad
- 852 **Correlative Studies of Serum Digitalis Levels and the Arrhythmias of Digitalis Intoxication.** William Shapiro
- 860 **Fascicular Conduction Disturbances After Coronary Bypass Surgery.** Steven M. Zeldis, Joel Morganroth, Leonard N. Horowitz, Eric L. Michelson, Mark E. Josephson, Eugene C. Lozner, Horace MacVaugh, III and John A. Kastor

EXPERIMENTAL STUDIES

- 865 **Hemodynamic Significance of the Length of a Coronary Arterial Narrowing.** Robert L. Feldman, Wilmer W. Nichols, Carl J. Pepine and C. Richard Conti
- 872 **Effects of Lidocaine on Hypoxic and Ischemic Cardiac Cells.** Ralph Lazzara, Nabil El-Sherif, Ronald R. Hope and Benjamin J. Scherlag
- 880 **Effect of Propranolol on Mitochondrial Morphology During Acute Myocardial Ischemia.** Robert A. Kloner, Michael C. Fishbein, Eugene Braunwald and Peter R. Maroko

METHODS

- 887 **Techniques for Right and Left Ventricular Endomyocardial Biopsy.** Jay W. Mason
- 893 **Retrograde Left Ventricular Catheterization in Patients With an Aortic Valve Prosthesis.** Dennis L. Karsh, Stephen P. Michaelson, Rene A. Langou, Lawrence S. Cohen and Steven Wolfson

- 897 **Assessment of Cardiac Performance With Quantitative Radionuclide Angiocardiography: Right Ventricular Ejection Fraction With Reference to Findings in Chronic Obstructive Pulmonary Disease.** Harvey J. Berger, Richard A. Matthay, Jacob Loke, Robert C. Marshall, Alexander Gottschalk and Barry L. Zaret

PEDIATRIC CARDIOLOGY

- 906 **Primary Repair of Complete Atrioventricular Canal in Patients Less Than 2 Years Old.** Thomas J. Berger, John W. Kirklin, Eugene H. Blackstone, Albert D. Pacifico and Nicholas T. Kouchoukos
- 914 **Differentiation of Functional and Structural Pulmonary Atresia: Role of Aortography.** Robert M. Freedom, Gordon Culham, Frederick Moes, Peter M. Olley and Richard D. Rowe
- 921 **Hypertensive Pulmonary Vascular Disease in d-Transposition of the Great Arteries.** William D. Edwards and Jesse E. Edwards

REPORTS ON THERAPY

- 925 **Comparative Hemodynamic Effects of Intravenous Nitroprusside and Oral Prazosin in Refractory Heart Failure.** Jawahar Mehta, Marie Iacona, Robert L. Feldman, Carl J. Pepine and C. Richard Conti
- 931 **Effect of Sublingual Nitroglycerin in Emergency Treatment of Severe Pulmonary Edema.** Wulf-Dirk Bussmann and Dorothee Schupp
- 937 **Left Ventricular Dynamics During Long-Term Digoxin Treatment in Patients With Stable Coronary Artery Disease.** Jay H. Kleiman, Neil B. Ingels, George Daughters II, Edward B. Stinson, Edwin L. Alderman and Robert H. Goldman

REVIEWS

- 943 **Exercise Testing for Detection of Myocardial Ischemia in Patients With Abnormal Electrocardiograms at Rest.** Borys Surawicz and Satoshi Saito

DIAGNOSTIC SHELF

- 952 **Musical Murmurs: An Echo-Phonocardiographic Study.** Kalyanasundaram Venkataraman, Robert Siegel, Sun June Kim and John W. Allen

CASE REPORTS

- 956 **Familial Study of Hypertrophic Cardiomyopathy and Congenital Aortic Valve Disease.** Özgen Feizi, Geoffrey Farrer-Brown and Richard Emanuel

EDITORIALS

- 965 **Myocardial Biopsy: A Useful Diagnostic Procedure or Only a Research Tool?** Victor J. Ferrans and William C. Roberts

SPECIAL DEPARTMENTS

- 968 **Books Received**
- 970 **American College of Cardiology News**

CONTENTS IN BRIEF

SYMPOSIUM ON NEW ASPECTS OF ANTIARRHYTHMIC THERAPY.

Douglas P. Zipes, Guest Editor

- 975 **Introduction: Miles To Go.** Douglas P. Zipes
- 979 **Roles of Psychologic Stress and Autonomic Nervous System Changes in Provocation of Ventricular Premature Complexes.** Bernard Lown and Regis A. DeSilva, *with the technical assistance of Richard Lenson*
- 986 **Pharmacokinetics of Antiarrhythmic Drugs.** Raymond L. Woosley and David G. Shand
- 996 **Contribution of Ambulatory Electrocardiographic Monitoring to Antiarrhythmic Management.** Donald C. Harrison, John W. Fitzgerald and Roger A. Winkle
- 1005 **New Antiarrhythmic Agents. Amiodarone, Aprindine, Disopyramide, Ethmozin, Mexiletine, Tocainide, Verapamil.** Douglas P. Zipes and Paul J. Troup
- 1025 **Electrical Management of Arrhythmias With Emphasis on the Tachycardias.** Hein J. J. Wellens, Frits W. Bär, Anton P. Gorgels and Jeronimo Farré Muncharaz
- 1035 **Surgical Treatment of Arrhythmias: Current Status and Future Directions.** John J. Gallagher

CLINICAL STUDIES

- 1045 **Clinical, Electrocardiographic and Electrophysiologic Observations in Patients With Paroxysmal Supraventricular Tachycardia.** Delon Wu, Pablo Denes, Fernando Amat-y-Leon, Ramesh Dhingra, Christopher R. C. Wyndham, Robert Bauernfeind, Pervaize Latif and Kenneth M. Rosen
- 1052 **Electrophysiologic Characteristics of Concealed Bypass Tracts: Clinical and Electrocardiographic Correlates.** Ardeshir Farshidi, Mark E. Josephson and Leonard N. Horowitz
- 1061 **Effects of Propranolol on Anomalous Pathway Refractoriness and Circus Movement Tachycardias in Patients With Preexcitation.** Pablo Denes, James M. Cummings, Ross Simpson, Delon Wu, Fernando Amat-y-Leon, Ramesh Dhingra and Kenneth M. Rosen
- 1068 **Multiple Intracardiac Recordings in Evaluation of Patterns Occurring During Attempted His Bundle Pacing in Man.** Ivan J. Mendoza, Ruey J. Sung, Stephen M. Mallon, Agustin Castellanos and Robert J. Myerburg

EXPERIMENTAL STUDIES

- 1075 **Pharmacologic and Behavioral Effects on Arrhythmias That Immediately Follow Abrupt Coronary Occlusion: A Canine Model of Sudden Coronary Death.** Jon Rosenfeld, Michael R. Rosen and Brian F. Hoffman
- 1083 **Relation Between Ventricular Refractoriness and Regional Myocardial Blood Flow After Acute Coronary Occlusion.** William P. Batsford, David S. Cannom and Barry L. Zaret

METHODS

- 1089 **Catheter Recording of Bachmann's Bundle Activation From the Right Pulmonary Artery: A New Technique for Atrial Mapping and the Study of Supraventricular Tachycardia.** Satoshi Ogawa, Leonard S. Dreifus, James G. Kitchen III, Prakash N. Shenoy and Mary Jane Osmick

PEDIATRIC CARDIOLOGY

- 1097 **Natural History of Wolff-Parkinson-White Syndrome Discovered in Infancy.** Michael E. Mantakas, Carolyn M. McCue and William W. Miller
- 1104 **Electrophysiologic Studies After Mustard's Operation for d-Transposition of the Great Vessels.** Michael G. Saalouke, Jorge Rios, Lowell W. Perry, Stephen R. Shapiro and Lewis P. Scott

DIAGNOSTIC SHELF

- 1110 **Second Degree His-Purkinje Block During His Bundle Pacing.** Agustin Castellanos, Federico Moleiro, Ruey J. Sung and Robert J. Myerburg

CASE REPORTS

- 1115 **Atrioventricular Nodal Gap Conduction as a Manifestation of Dual Nodal Pathways.** David M. Mirvis and Jack P. Bandura
- 1119 **Self-Initiated Conversion of Paroxysmal Atrial Flutter Utilizing a Radio-Frequency Pacemaker.** Christopher R. Wyndham, Delon Wu, Pablo Denes, Daniel Sugarman, Sidney Levitsky and Kenneth M. Rosen

EDITORIALS

- 1123 **Paroxysmal Supraventricular Tachycardia: An Electrophysiologic Approach.** Mark E. Josephson

CONTENTS: VOLUME 41

JUNE, 1978

CONTENTS IN BRIEF

CLINICAL STUDIES

- 1127 **Infarct Expansion Versus Extension: Two Different Complications of Acute Myocardial Infarction.** Grover M. Hutchins and Bernadine H. Bulkley
- 1133 **"Malignant" Hypertrophic Cardiomyopathy: Identification of a Subgroup of Families With Unusually Frequent Premature Death.** Barry J. Maron, Lewis C. Lipson, William C. Roberts, Daniel D. Savage and Stephen E. Epstein
- 1141 **Cardiac Manifestations in Polymyositis.** John S. Gottdiener, Harvey S. Sherber, Rollin J. Hawley and W. King Engel
- 1150 **Left Ventricular Function in Pulmonary Hypertension.** Hans P. Krayenbuehl, Juraj Turina and Otto Hess
- 1159 **Structural Changes in Glutaraldehyde-Treated Porcine Heterografts Used as Substitute Cardiac Valves.** Victor J. Ferrans, Thomas L. Spray, Margaret E. Billingham and William C. Roberts
- 1185 **Structural Alterations of the Porcine Heterograft After Various Durations of Implantation.** Muhammad Ashraf and Colin M. Bloor

EXPERIMENTAL STUDIES

- 1191 **Synchronized Retroperfusion of Coronary Veins for Circulatory Support of Jeopardized Ischemic Myocardium.** Jean C. Farcot, Samuel Meerbaum, Tzu-Wang Lang, Leo Kaplan and Eliot Corday
- 1202 **Role of Delayed Intraaortic Balloon Pumping in Treatment of Experimental Myocardial Infarction.** Arthur J. Roberts, Daniel R. Alonso, John R. Combes, Jerome G. Jacobstein, Martin R. Post, Patrick T. Cahill, Shean-Lan T. Ho, Ronald M. Abel, Valavanur A. Subramanian and William A. Gay, Jr.
- 1209 **Protection of the Ischemic Dog Myocardium With Carnitine.** John D. Folts, Austin L. Shug, Joseph R. Koke and Neville Bitar
- 1215 **Insulin Therapy for Depressed Myocardial Contractility After Prolonged Ischemia.** James E. Muller, S. Mochizuki, J. Kenneth Koster, John J. Collins, Jr., Lawrence H. Cohn and James R. Neely

METHODS

- 1222 **Direct Method for Determining Regional Myocardial Shortening After Bypass Surgery From Radiopaque Markers in Man.** Ronald W. Brower, Harald J. ten Katen and Gerald T. Meester
- 1230 **Ejection Fraction Image: A Noninvasive Index of Regional Left Ventricular Wall Motion.** Denis E. Maddox, B. Leonard Holman, Joshua Wynne, John Idoine, J. Anthony Parker, Roger Uren, Jane M. Neill and Peter F. Cohn
- 1239 **Computer Analysis of Left Ventricular Dynamic Geometry in Man.** Alfred A. Bove, Thomas H. Kreulen and James F. Spann

- 1249 **Cardiokymography: Quantitative Analysis of Regional Ischemic Left Ventricular Dysfunction.** George A. Diamond, Mark Chag, Ran Vas and James S. Forrester

- 1258 **Cross-Sectional Echocardiographic Detection of Rheumatic Mitral Regurgitation.** Lee S. Wann, Harvey Feigenbaum, Arthur E. Weyman and James C. Dillon

PEDIATRIC CARDIOLOGY

- 1264 **Echocardiographic Assessment of Pulmonary Arterial Pressure in Children With Complete Right Bundle Branch Block.** Gregory L. Johnson, Richard A. Meyer, Joan Korfhagen, David C. Schwartz and Samuel Kaplan
- 1270 **Serial Echocardiographic Profiles in Infants and Children With Coarctation of the Aorta.** Jennifer P. Wing, William A. Findlay, David J. Sahn, Gail McDonald, Hugh D. Allen and Stanley J. Goldberg
- 1278 **Hemodynamic Responses to Exercise in Normal Children.** James E. Lock, Stanley Einzig and James H. Moller

STUDIES IN HYPERTENSION

- 1285 **Abrupt Cessation of Clonidine Administration: A Prospective Study.** Thomas L. Whitsett, Steven G. Chrysant, Bonnie L. Dillard and Aaron H. Anton

REPORTS ON THERAPY

- 1291 **Unstable Angina Pectoris: A Randomized Study of Patients Treated Medically and Surgically.** Bill Pugh, Melvin R. Platt, Lawrence J. Mills, Donald Crumbo, Lawrence R. Poliner, George C. Curry, Gunnar C. Blomqvist, Robert W. Parkey, L. Maximilian Buja and James T. Willerson
- 1299 **Improved Right Ventricular Systolic Time Intervals After Digitalis in Patients With Cor Pulmonale and Chronic Obstructive Pulmonary Disease.** David E. Smith, Joe K. Bissett, James R. Phillips, James E. Doherty and Marvin L. Murphy

CASE REPORTS

- 1305 **Symptomatic Myocardial Bridging of Coronary Artery.** Azhar M. A. Faruqi, William C. Maloy, Joel M. Felner, Robert C. Schlant, William D. Logan and Panagiotis Symbas
- 1311 **Anomalous Left Circumflex Coronary Artery: "Normal" Variant of Uncertain Clinical and Pathologic Significance.** Kenneth J. Silverman, Bernadine H. Bulkley and Grover M. Hutchins

EDITORIALS

- 1315 **Use of Anticoagulant Agents in Acute Myocardial Infarction.** Arthur Selzer

SPECIAL DEPARTMENTS

ANNIVERSARY EDITORIALS

- 3 The 20th Anniversary. Simon Dack
- 5 The First 20 Years of *The American Journal of Cardiology*: A Chronicle of the Golden Age of Cardiology. Eugene Braunwald
- 9 A Family Party. Walter Somerville
- 10 Notes From a Colleague. Elliot Rapaport
- 11 Si Dack, MD. George Burch
- 12 Cardiology for the Clinician: Simon Dack's Editorial Perspective. Alfred Soffer
- 13 A Personal Tribute. Dwight C. McGoon
- 14 Simon Dack and *The American Journal of Cardiology*. William C. Roberts
- 17 Simon Dack, MD—Editor-in-Chief. Reflections of the Senior Editors. Leslie A. Kuhn for the Senior Assistant Editors: Raymond Harris, Ira J. Gelb and Melvin Kahn
- 18 To Our Editor. Louis F. Le Jacq

CLINICAL STUDIES

- 19 Submaximal Exercise Testing in Patients After Acute Myocardial Infarction: Myocardial Scintigraphic and Electrocardiographic Observations. Jose I. Pulido, James Doss, Donald Twig, Gunnar C. Blomqvist, Dale Faulkner, Vernon Horn, Debra DeBates, Martin Tobey, Robert W. Parkey and James T. Willerson
- 29 Comparison of S-T Segment Changes on Exercise Testing With Angiographic Findings in Patients With Prior Myocardial Infarction. Mark J. Castellane, Paul S. Greenberg and Myrvin H. Ellestad
- 36 Is the Treadmill Exercise Test Useful for Evaluating Coronary Artery Disease in Patients With Complete Left Bundle Branch Block? Fulvio Orzan, Efrain Garcia, Virendra S. Mathur and Robert J. Hall
- 41 Coronary Artery Disease in Young Women: Clinical and Angiographic Features and Correlation With Risk Factors. David D. Waters, Cristine Halphen, Pierre Theroux, Paul-Robert David and Henry F. Mizgala
- 48 Nonobstructive Coronary Thrombosis in Sudden Cardiac Death. Richard J. Frink, James O. Trowbridge and Pierce A. Rooney, Jr.
- 52 Rapid Changes in Left Ventricular Dimensions and Mass in Response to Physical Conditioning and Deconditioning. Ali A. Ehsani, James M. Hagberg and Robert C. Hickson
- 57 Association of Left Dominant Coronary Arterial System With Congenital Bicuspid Aortic Valve. Grover M. Hutchins, Iradj H. Nazarian and Bernadine H. Bulkley
- 60 Mitral Ring Calcification in Idiopathic Hypertrophic Subaortic Stenosis. Itzhak Kronzon and Ephraim Glassman

EXPERIMENTAL STUDIES

- 67 Radioautographic Studies in Experimental Myocardial Infarction: Profiles of Ischemic Blood Flow and Quantification of Infarct Size in Relation to Magnitude of Ischemic Zone. Pantel S. Vokonas, Paul M. Malsky, Shari J. Paul, Stanley L. Robbin and William B. Hood, Jr.
- 76 Effects of Tocainide on Ventricular Fibrillation Threshold. Ingela Schnittger, Jerry C. Griffin, Roger J. Hall, Peter J. Meffin and Roger A. Winkle. With the technical assistance of Flora Peters and Robert Kernoff

- 82 Left Ventricular Function in Exercise-Induced Hypertrophy in Dogs. Thomas E. Carew and James W. Covell

METHODS

- 89 Problems in Ultrasonic Estimates of Septal Thickness. John W. Allen, Sun June Kim, W. Allan Edmiston and K. Venkataraman

PEDIATRIC CARDIOLOGY

- 97 Cerebrovascular Abnormalities in Postoperative Coarctation of Aorta. Michael G. Saalouke, Lowell W. Perry, David L. Breckbill, Stephen R. Shapiro and Lewis P. Scott III
- 102 Congenital Aortic Stenosis Secondary to Dysplasia of Congenital Bicuspid Aortic Valves Without Commissural Fusion. Melvin D. Cheitlin, John J. Fenoglio, Hugh A. McAllister, Jr., James E. Davia and Carlos M. DeCastro
- 108 Echocardiographic Features of Total Anomalous Pulmonary Venous Drainage into the Coronary Sinus. Kalim U. Aziz, Milton H. Paul, Saroja Bharati, Maurice Lev and Kathleen Shannon

EPIDEMIOLOGY

- 114 Death From Ischemic Heart Disease in Young Finns Aged 15 to 24 Years. Kimmo Koskenvuo, Martti J. Karvonen and Viljo Rissanen
- 119 Remission of Clinical Angina Pectoris: the Framingham Study. William B. Kannel and Paul D. Sorlie

REPORTS ON THERAPY

- 124 Disease of the Left Main Coronary Artery. Surgical Treatment and Long-Term Follow-Up in 267 Patients. Jose B. Farinha, Marvin A. Kaplan, Clifford N. Harris, Edward F. Dunne, Ronald A. Carlisch, Jerome Harold Kay and Samuel Brooks
- 129 Pharmacokinetics and Bioavailability of Digoxin Capsules, Solution and Tablets After Single and Multiple Doses. Brian L. Lloyd, David J. Greenblatt, Marcia D. Allen, Jerold S. Harmatz and Thomas W. Smith

CASE REPORTS

- 137 Three Cases of Hypotension and Syncope With Ventricular Pacing: Possible Role of Atrial Reflexes. Carlo Alicandri, Fetnat M. Fouad, Robert C. Tarazi, Lon Castle and Victor Morant
- 143 Cardiac Sarcoidosis. Diagnosis With Endomyocardial Biopsy and Treatment With Corticosteroids. Beverly Lorell, Edwin L. Alderman and Jay W. Mason
- 147 Lack of Connection Between the Atria and the Peripheral Conduction System in a Case of Corrected Transposition With Congenital Atrioventricular Block. Saroja Bharati, Carolyn M. McCue, Jon B. Tingelstad, Michael Mantakas, Fergus Shiel and Maurice Lev

EDITORIALS

- 154 Coronary Bypass Surgery Weighed in the Balance. Floyd D. Loop, William L. Proudfoot and William C. Sheldon
- 157 Evaluation of the Efficacy of Coronary Bypass Surgery—I. Herbert N. Hultgren, Timothy Takaro, Katherine M. Detre and Marvin L. Murphy. For the participants in the Veterans Administration Cooperative Study
- 161 Evaluation of the Efficacy of Coronary Bypass Surgery—II. Eugene Braunwald

SPECIAL DEPARTMENTS

- 163 American College of Cardiology News

CLINICAL STUDIES

- 167 **Thallium-201 Myocardial Perfusion Scintigraphy to Evaluate Patients After Coronary Bypass Surgery.** Barry H. Greenberg, Richard Hart, Elias H. Botvinick, Jeffrey A. Werner, Bruce H. Brundage, David M. Shames, Kanu Chatterjee and William W. Parmley
- 177 **Serial Myocardial Scintigraphy After a Single Dose of Thallium-201 in Men After Acute Myocardial Infarction.** Thomas C. Smitherman, Roger C. Osborn, Jr. and Kenneth A. Narahara
- 183 **Results of Aortocoronary Bypass Grafting in Patients With Subendocardial Infarction: Late Follow-Up.** Agop Aintablian, Robert I. Hamby, Daniel Weisz, Irwin Hoffman, Choudary Voleti and B. George Wisoff
- 187 **Intraoperative Evaluation of the Functional Significance of Coronary Collateral Vessels in Patients With Coronary Artery Disease.** Willem Flameng, Franz Schwarz and Fritz W. Hehrlein
- 193 **Effect of Coronary Stenosis on Myocardial Function, Ultrastructure and Aortocoronary Bypass Graft Hemodynamics.** Franz Schwarz, Willem Flameng, Klaus-Ulrich Thiedemann, Wolfgang Schaper and Martin Schlepper
- 202 **Risk Stratification After Acute Myocardial Infarction.** J. Thomas Bigger, Jr., Caren A. Heller, Thomas L. Wenger and Francis M. Weld
- 211 **Clinicopathologic Analysis of Cardiac Dysfunction in 52 Patients With Sick Cell Anemia.** Joseph L. Gerry, Jr., Bernadine H. Bulkley and Grover M. Hutchins

EXPERIMENTAL STUDIES

- 217 **Prolonged Protective Effect of Propranolol on Hypoxic Heart Muscle.** Winifred G. Nayler, Carmen E. Yopez, Elisabeth Fassold and Roberto Ferrari
- 226 **Beneficial Effects of Propranolol and Digitalis on Contraction and S-T Segment Elevation After Acute Coronary Occlusion.** Surrender Raina, Vidya S. Banka, Kodangudi Ramanathan, Monty M. Bodenheimer and Richard H. Helfant
- 234 **Regional Redistribution of Myocardial Blood Flow After Coronary Occlusion and Reperfusion in the Conscious Dog.** Francis C. White, Max Sanders and Colin M. Bloor
- 244 **Servocontrolled Cardiac Assistance: The Effects of Left Ventricular to Aortic and Left Atrial to Aortic Assistance on Infarct Size.** Hillel Laks, Richard A. Ott, John W. Standeven, John W. Hahn, Olga M. Blair and Vallee L. Willman
- 251 **Early Quantification of Experimental Myocardial Infarction With Technetium-99m Glucoheptonate: Scintigraphic and Anatomic Studies.** Daniel R. Alonso, Jerome G. Jacobstein, Paul R. Cipriano, Arthur J. Roberts, Maria L. Alonso and Susan A. Kline. *With the technical assistance of Emilio Campo and Carolyn Pavlick*

PEDIATRIC CARDIOLOGY

- 259 **Echocardiographic Features of Congenital Mitral Stenosis.** David J. Driscoll, Howard P. Gutgesell and Dan G. McNamara

REPORTS ON THERAPY

- 267 **Combined Nitroprusside-Dopamine Therapy in Severe Chronic Congestive Heart Failure. Dose-Related Hemodynamic Advantages Over Single Drug Infusions.** Dale R. Stemple, Jay H. Kleiman and Donald C. Harrison
- 276 **Human Electropharmacology of Tocainide, a Lidocaine Congener.** Leonard N. Horowitz, Mark E. Josephson and Ardeshir Farshidi
- 281 **Recurrent Cardiac Tamponade and Large Pericardial Effusions: Management With an Indwelling Pericardial Catheter.** Jeanne Y. Wei, George J. Taylor and Stephen C. Achuff

REVIEWS

- 283 **Discrete Subaortic Stenosis in Adults.** Chung-Shin Sung, Everett C. Price and Denton A. Cooley

DIAGNOSTIC SHELF

- 291 **Diagnosis of Dissecting Aortic Aneurysm With Suprasternal Echocardiography.** Wolfgang Kasper, Thomas Meinertz, Friedrich Kersting, Klaus Lang and Hanjörg Just

CASE REPORTS

- 295 **Systemic Hypertension Complicating Tetralogy of Fallot: Effects of Antihypertensive Therapy.** William Bengé and Carl W. White
- 299 **Shunt Flow and Pulmonary Hemodynamics During Labor and Delivery in the Eisenmenger Syndrome.** Jay Midwall, Herbert Jaffin, Michael V. Herman and Joel Kupersmith
- 304 **Effect of Propranolol on Fetal Tachycardia in Diabetic Pregnancy.** Arthur Teuscher, Emilio Bossi, Peter Imhof, Erhard Erb, Franco P. Stocker and Jann W. Weber

CONTROVERSIES IN CARDIOLOGY

- 308 **Value of Coronary Bypass Surgery. Controversies in Cardiology: Part I.** J. Willis Hurst, Spencer B. King III, R. Bruce Logue, Charles R. Hatcher, Jr., Ellis L. Jones, Joe M. Craver, John S. Douglas, Jr., Robert H. Franch, Edward R. Dorney, B. Woodfin Cobbs, Jr., Paul H. Robinson, Stephen D. Clements, Jr., Joel Kaplan and James M. Bradford
- 330 **Influence of Myocardial Revascularization on Survival. Controversies in Cardiology: Part II.** C. Richard Conti

SPECIAL DEPARTMENTS

- 333 **Letters to the Editor**

Veterans Administration Cooperative Study of Surgery for Coronary Arterial Occlusive Disease—I and II—J. S. Carey, R. A. Cukingnan, K. M. Detre, et al.
Congestive Heart Failure, Cardiomegaly and Embolism in Ischemic Heart Disease—W. P. Hood, Jr. and R. C. Hinton

- 336 **American College of Cardiology News**

CLINICAL STUDIES

- 345 **Myocardial Imaging With Thallium-201: A Multicenter Study in Patients With Angina Pectoris or Acute Myocardial Infarction.** James L. Ritchie, Barry L. Zaret, H. William Strauss, Bertram Pitt, Daniel S. Berman, Heinrich R. Schelbert, William L. Ashburn, Harvey J. Berger and Glen W. Hamilton
- 351 **Exercise-Induced Left Ventricular Dysfunction in Symptomatic and Asymptomatic Patients With Aortic Regurgitation: Assessment With Radionuclide Cineangiography.** Jeffrey S. Borer, Stephen L. Bacharach, Michael V. Green, Kenneth M. Kent, Walter L. Henry, Douglas R. Rosing, Stuart F. Seides, Gerald S. Johnston and Stephen E. Epstein. *With the technical assistance of Bonnie Mack*
- 358 **Prevalence of Right Ventricular Involvement in Inferior Wall Infarction Assessed With Myocardial Imaging With Thallium-201 and Technetium-99m Pyrophosphate.** Frans J. Th. Wackers, K. I. Lie, Ellinor Busemann Sokole, Jan Res, Jan B. Van der Schoot and Dirk Durrer
- 363 **Metabolic Responses of the Heart in Acute Myocardial Infarction in Man.** Hiltrud S. Mueller and Stephen M. Ayres
- 372 **Exercise Training and Plasma Catecholamines in Patients With Ischemic Heart Disease.** Jon D. Cooksey, Patricia Reilly, Sandra Brown, Howard Bomze and Philip E. Cryer
- 377 **Slow Filling Period/Rapid Filling Period Ratio in the Apexcardiogram: Relation to the Diagnosis of Coronary Artery Disease.** Agenor Silvestre, Gurmit Sandhu, Kenneth B. Desser and Alberto Benchimol
- 383 **Mitral Valve Motion and Changes in Left Ventricular End-Diastolic Pressure: A Correlative Study of the PR-AC Interval.** J. Randolph Lewis, John O. Parker and Gary W. Burggraf
- 388 **Echocardiography: Pericardial Thickening and Constrictive Pericarditis.** Ingela Schnitger, Robert E. Bowden, Jack Abrams and Richard L. Popp
- 396 **Carotid Sinus Hypersensitivity and Syncope.** Paul F. Walter, I. Sylvia Crawley and Edward R. Dorney
- 404 **Initiation of Two Distinct Forms of Atrioventricular Nodal Reentrant Tachycardia During Programmed Ventricular Stimulation in Man.** Ruey J. Sung, Januarius L. Styperek, Robert J. Myerburg and Agustin Castellanos
- 416 **Sustained Ventricular Tachycardia: Evidence for Protected Localized Reentry.** Mark E. Josephson, Leonard N. Horowitz, Ardeshir Farshidi, Scott R. Spielman, Eric L. Michelson and Allan M. Greenspan

EXPERIMENTAL STUDIES

- 425 **Precordial Mechanical Stimulation for Exposing Electrical Instability in the Ischemic Heart.** Bernard Lown, Richard L. Verrier and Charles M. Blatt
- 429 **Progressive Transmural Electrographic, Myocardial Potassium Ion/Sodium Ion Ratio and Ultrastructural Changes As a Function of Time After Acute Coronary Occlusion.** Vidya S. Banka, Monty M. Bodenheimer, Kodangudi B. Ramanathan, George A. Hermann and Richard H. Helfant

METHODS

- 444 **Computer-Assisted Reporting System for the Follow-Up of Patients With Prosthetic Heart Valves.** David C. MacGregor, H. Dominic Covey, Gregory J. Wilson, Leonard Schwartz, Hugh E. Scully and E. Douglas Wigle
- 453 **Transvascular Endomyocardial Biopsy in Infants and Small Children: Description of a New Technique.** Paul R. Lurie, Masahiro Fujita and Harry B. Neustein

PEDIATRIC CARDIOLOGY

- 458 **Life Expectancy Without Surgery in Tetralogy of Fallot.** Enrique G. Bertranou, Eugene H. Blackstone, Jane B. Hazelrig, Malcolm

E. Turner, Jr. and John W. Kirklin

- 467 **Association of Interrupted Aortic Arch With Malformations Producing Reduced Blood Flow to the Fourth Aortic Arches.** G. William Moore and Grover M. Hutchins

REPORTS ON THERAPY

- 473 **Antiarrhythmic Drug Effect Assessed From Ventricular Arrhythmia Reduction in the Ambulatory Electrocardiogram and Treadmill Test: Comparison of Propranolol, Procainamide and Quinidine.** Roger A. Winkle, Alan H. Gradman and John W. Fitzgerald. *With the technical assistance of Patricia A. Bell*
- 481 **Reduced Quinidine Clearance in Elderly Persons.** Hermann R. Ochs, David J. Greenblatt, Elaine Woo and Thomas W. Smith
- 486 **Efficacy of Lidocaine in Preventing Primary Ventricular Fibrillation Within 1 Hour After a 300 mg Intramuscular Injection. A Double-Blind, Randomized Study of 300 Hospitalized Patients With Acute Myocardial Infarction.** K. I. Lie, Koen L. Liem, Willem J. Louridtz, Michiel J. Janse, Albertus F. Willebrands and Dirk Durrer

EPIDEMIOLOGY

- 489 **Natural History of Myocardial Infarction in the Coronary Drug Project: Long-Term Prognostic Importance of Serum Lipid Levels.** Jeremiah Stamler, Sandra Forman and William F. Krol

DIAGNOSTIC SHELF

- 499 **Retrograde Block During Dual Pathway Atrioventricular Nodal Reentrant Paroxysmal Tachycardia.** Robert A. Bauernfeind, Delon Wu, Pablo Denes and Kenneth M. Rosen
- 506 **Electrophysiologic Observations in a Patient With Bradycardia-Dependent Atrioventricular Block.** Delon Wu, Prakash Deedwania, Ramesh C. Dhingra, Richard M. Engleman and Kenneth M. Rosen

CASE REPORTS

- 513 **Electrophysiologic Effects of Acute Myocardial Infarction in Man.** Isaac Wiener, Bruce Mindich and Joel Kupersmith
- 517 **Unusual Vasomotor Coronary Arterial Responses After Nitroglycerin.** Robert L. Feldman, Carl J. Pepine and C. Richard Conti

EDITORIALS

- 520 **Remission of Angina Pectoris.** Stephen M. Ayres and Hiltrud S. Mueller

SPECIAL DEPARTMENTS

522 Letters to the Editor

Exercise Testing in Chronic Stable Inferior Myocardial Infarction—J. P. Liss, Jr. and R. R. Miller

Delayed Return of Electrocardiographic Tracing After Defibrillatory Electric Shock Caused by Electrocardiographic Monitor/Electrode Incompatibilities—J. R. Buysman

Atropine and Sinus Nodal Recovery Time—P. L. Schoenfeld, J. A. Reiffel and J. T. Bigger, Jr.

Verapamil and Sudden Death—P. Fazzini, F. Marchi and P. Pucci

Lown's Unusual Case of Effort Angina—H. R. Hellstrom and B. Lown

Septal Perforator Compression in Idiopathic Hypertrophic Subaortic Stenosis—J. B. Kostis, A. E. Moreyra and A. Pichard

Clinical Correlates of Left Ventricular Cavity Obliteration—J. E. Val Mejias

Leukocytic Scintigraphy After Cardiac Transplantation—R. F. Gillum and B. E. Sobel

529 American College of Cardiology News

CLINICAL STUDIES

- 533 **Detection of Critical Coronary Lesions With Treadmill Exercise Testing: Fact or Fiction?** Rafael Levites and Gary J. Anderson
- 539 **Hemodynamic and Anatomic Determinants of Relative Differences in Amplitude of the Aortic and Pulmonary Components of the Second Heart Sound.** Paul D. Stein, Hani N. Sabbah, Daniel T. Anbe and Fareed Khaja
- 545 **Apparent Reduction of Aortic and Left Heart Chamber Size in Atrial Septal Defect.** Anthony N. DeMaria, Leslie E. Oliver, Hugo G. Borgren, Lilly George and Dean T. Mason
- 551 **Significance of Left Axis Deviation in Patients With Chronic Left Bundle Branch Block.** Ramesh C. Dhingra, Fernando Amat-Y-Leon, Christopher Wyndham, Sivram S. Sridhar, Delon Wu, Pablo Denes and Kenneth M. Rosen
- 557 **Cardiac Biopsy Evidence for a Cardiomyopathy Associated With Symptomatic Mitral Valve Prolapse.** Jay W. Mason, Francis H. Koch, Margaret E. Billingham and Roger A. Winkle
- 563 **Effect of Digoxin on Coronary Blood Flow and Myocardial Oxygen Consumption in Patients With Chronic Coronary Artery Disease.** Volker Kötter, Klaus-Peter Schüren and Rolf Schröder
- 570 **Effects of Digitalis on Atrial Vulnerability.** Toby R. Engel and Ana Del C. Gonzalez
- 577 **Pulmonary Pulsus Alternans in Acute Myocardial Infarction.** Jose Lopez-Sendon, Isabel Coma-Canella, Luis Martin Jdraque and Isidoro Gonzalez Maqueda
- 583 **Type A Personality and Extent of Coronary Atherosclerosis.** Joel E. Dimsdale, Thomas P. Hackett, Adolph M. Hutter, Jr., Peter C. Block and Donna Catanzano

EXPERIMENTAL STUDIES

- 587 **Effect of Lidocaine on Conduction in the Ischemic His-Purkinje System of Dogs.** Gary Gerstenblith, Benjamin J. Scherlag, Ronald R. Hope and Ralph Lazzara

PEDIATRIC CARDIOLOGY

- 592 **Anatomic Types of Congenital Mitral Stenosis: Report of 49 Autopsy Cases With Consideration of Diagnosis and Surgical Implications.** Roger N. Ruckman and Richard Van Praagh
- 602 **Vectorcardiographic Diagnosis of Right Ventricular Hypertrophy in the Presence of Right Bundle Branch Block in Young Subjects.** Christian R. Brohet, Mady Styns, Pierre Arnaud and Lucien A. Brasseur
- 613 **Maximal Exercise Capacity of Children With Heart Defects.** Gordon R. Cumming
- 620 **The Criss-Cross and Superior Inferior Ventricular Heart: An Angiocardiographic Study.** Robert M. Freedom, Gordon Culham and Richard D. Rowe

REPORTS ON THERAPY

- 629 **Surgical Approach for Patients With Unstable Angina Pectoris: Role of the Response to Initial Medical Therapy and Intraaortic Balloon Pumping in Perioperative Complications After Aortocoronary Bypass Grafting.** Rene A. Langou, Alexander S. Geha, Graeme L. L. Hammond and Lawrence S. Cohen
- 634 **Unstable Angina: The Case for Operation.** Gordon N. Olinger, Lawrence I. Bonchek, Michael H. Keelan, Jr., Donald D. Tresch, Ronald Siegel, Virinderjit Bamrah and Felix E. Tristani

EPIDEMIOLOGY

- 641 **Congenital Heart Disease in a Cohort of 19,502 Births With Long-Term Follow-Up.** Julien I. E. Hoffman and Roberta Christianson
- 648 **Survival of Patients With Nontransmural Myocardial Infarction: A Population-Based Study.** Moyses Szklo, Robert Goldberg, Harold L. Kennedy and James A. Tonascia
- 653 **Relation of Lipids, Weight and Physical Activity to Incidence of Coronary Heart Disease: The Puerto Rico Heart Study.** Raul Costas, Jr., Mario R. Garcia-Palmieri, Emilio Nazario and Paul D. Sorlie

CONTROVERSIES: EXERCISE TESTING

- 659 **Role of Exercise Stress Testing in Healthy Subjects and Patients With Coronary Heart Disease. Controversies in Cardiology—I.** Stephen N. Morris and Paul L. McHenry
- 667 **Values and Limitations of the Electrocardiographic Response to Exercise in the Evaluation of Patients With Coronary Artery Disease. Controversies in Cardiology—II.** Stephen E. Epstein

DIAGNOSTIC SHELF

- 675 **Thallium-201 Myocardial Imaging in Anomalous Left Coronary Artery Arising From the Pulmonary Artery. Applications Before and After Medical and Surgical Treatment.** John P. Finley, Robert Howman-Giles, David L. Gilday, Peter M. Olley and Richard D. Rowe
- 681 **Electrocardiographic Pseudo-Infarction Pattern: Appearance With a Large Posterior Pericardial Effusion After Cardiac Surgery.** Bakr Ibrahim Salem, Mark Schnee, Louis L. Leatherman, Carlos M. de Castro and Jaime Benrey

EDITORIALS

- 686 **Oral Vasodilator Therapy for Chronic Heart Failure: A Plea for Caution.** Milton Packer and Jose Meller

SPECIAL DEPARTMENTS

- 690 **Letters to the Editor**
Echocardiography and Prosthetic Valve Malfunction—U. W. Busch, V. S. Mathur, E. Garcia, et al. • Left Ventricular Pressure in Aortic Stenosis—T. Riggs, S. Hirschfeld, K. Aziz, et al. • Porcine Heterografts in Tricuspid Position—M. S. Horowitz and W. C. Roberts • Sudden Death: How Unexpected?—J. E. Mielke and L. E. Hinkle, Jr. • Septal Defect in Transposition of Great Arteries—J. Espino Vela and E. Hazan • Diastolic and Systolic Septal Motion in Patients With Mitral Stenosis—J. E. Douglas and A. E. Weyman • Complications After Provocation of Coronary Spasm With Ergonovine Maleate—D. Bauman, C. Nelson, S. A. Forward, et al. • "Normal" Cholesterol and Atherosclerosis—R. Cooper and J. T. Lie • Ventricular Inversion Without Transposition of Great Arteries—K. A. Chacko and W. B. Dunkman • Antiarrhythmic Effect of Verapamil—F. Marchi, V. Elharrar, W. E. Gaum, et al. • Criteria for Mitral Valve Prolapse—J. D. Horton, J. Ruwitch, E. R. Smith, et al. • Health Promotion and Primary Prevention—H. P. Wetzler and N. O. Borhani. • Cardiology in China Revisited—T. O. Cheng •
- 703 **Books Received**
- 705 **American College of Cardiology News**

CLINICAL STUDIES

- 709 Improved Survival After 5 Years in 1,144 Patients After Coronary Bypass Surgery. Gerald M. Lawrie, George C. Morris, Jr., Jimmy F. Howell, Tomas D. Tredici and Don W. Chapman
- 716 Relation of Graded Exercise Test Findings After Myocardial Infarction to Extent of Coronary Artery Disease and Left Ventricular Dysfunction. Thomas D. Paine, Larry E. Dye, David I. Roitman, L. Thomas Sheffield, Charles E. Rackley, Richard O. Russell, Jr. and William J. Rogers
- 724 Correlation of Electrocardiographic and Pathologic Findings in Healed Myocardial Infarction. William Sullivan, Zeev Vlodaver, Naip Tuna, Linda Long and Jesse E. Edwards
- 733 Apex Sector Echocardiography in Evaluation of the Right Atrium in Patients With Mitral Stenosis and Atrial Septal Defect. Frederick G. Kushner, Wilfred Lam and Joel Morganroth
- 738 Effect of Catheter Position on the Initiation of Atrial Echoes With Atrial Pacing and Premature Stimulation in Patients With Accessory Pathways. Edward L. C. Pritchett, David G. Benditt, William M. Smith and John J. Gallagher
- 746 Stress Myocardial Imaging in Mitral Leaflet Prolapse Syndrome. George J. Klein, William J. Kostuk, Derek R. Boughner and Michael J. Chamberlain
- 751 Noninvasive Assessment of Coronary Stenoses by Myocardial Imaging During Pharmacologic Coronary Vasodilatation. III. Clinical Trial. Peter C. Albro, K. Lance Gould, R. Jeffrey Westcott, Glen W. Hamilton, James L. Ritchie and David L. Williams

EXPERIMENTAL STUDIES

- 761 Assessment of Coronary Stenoses With Myocardial Perfusion Imaging During Pharmacologic Coronary Vasodilatation. IV. Limits of Detection of Stenosis With Idealized Experimental Cross-Sectional Myocardial Imaging. K. Lance Gould
- 769 Effect of Propranolol and Nitroglycerin Plus Methoxamine on Transmural Creatine Kinase Activity After Acute Coronary Occlusion. Gary J. Jesmok, Garrett J. Gross and Harold F. Hardman
- 774 Origin of So-Called Right and Left Ventricular Arrhythmias in Acute Myocardial Ischemia. Elieser Kaplinsky, Satoshi Ogawa, James Kmetzo and Leonard S. Dreifus
- 781 Effect of Stenotic Dimensions and Blood Flow on the Hemodynamic Significance of Model Coronary Arterial Stenoses. Kirk Lipscomb and Steven Hooten

PEDIATRIC CARDIOLOGY

- 793 Idiopathic Hypertrophic Subaortic Stenosis in the Young. Garrick I. Fiddler, Abdul J. Tajik, William H. Weidman, Dwight C. McGoon, Donald G. Ritter and Emilio R. Giuliani
- 800 Truncal or Aortic Valve Stenosis in Functionally Single Arterial Trunk. A Clinical, Hemodynamic and Pathologic Study of Six Cases. Raman G. Patel, Robert M. Freedom, Kenneth R. Bloom and Richard D. Rowe
- 810 Estimation of Pulmonary/Systemic Resistance Ratios From Echocardiographic Systolic Time Intervals in Young Patients With Congenital or Acquired Heart Disease. Eric W. Spooner, Burton L. Pk. y, Aaron M. Stern and Joan M. Sigmann

REPORTS ON THERAPY

- 817 Isoproterenol as a Potential Pulmonary Vasodilator in Primary Pulmonary Hypertension. Fuheld S. Daoud, John T. Reeves and Dennis B. Kelly

- 823 Effect of Afterload Reduction on Plasma Volume During Acute Heart Failure. Robert J. Henning and Max Harry Weil

REVIEWS

- 828 Spectrum of Regular Tachycardias With Wide QRS Complexes in Patients With Accessory Atrioventricular Pathways. David G. Benditt, Edward L. C. Pritchett and John J. Gallagher

SPECIAL REPORT

- 839 Unstable Angina Pectoris: National Cooperative Study Group to Compare Surgical and Medical Therapy. II. In-Hospital Experience and Initial Follow-Up Results in Patients With One, Two and Three Vessel Disease. National Cooperative Study Group

HISTORICAL MILESTONES

- 849 Centenary of the First Correct Antemortem Diagnosis of Coronary Thrombosis by Adam Hammer (1818-1878): English Translation of the Original Report. J. T. Lie

DIAGNOSTIC SHELF

- 853 Cross-Sectional Echocardiographic Diagnosis of Large Left Atrial Tumor and Extracardiac Tumor Compressing the Left Atrium. Limitation of M Mode Echocardiography in Distinguishing the Two Lesions. Junichi Yoshikawa, Irfan Sabah, Koji Yanagihara, Takane Owaki, Hiroshi Kato and Kiichiro Tanemoto
- 858 Hemodynamic Pattern Resembling Pericardial Constriction After Acute Inferior Myocardial Infarction With Right Ventricular Infarction. Douglas P. Jensen, James P. Goolsby, Jr. and Philip B. Oliva

CASE REPORTS

- 862 Fortuitous Rupture of Aortic Aneurysm: A Catastrophic Event Affording Time for Surgical Cure. James B. Young, John O. F. Roehm, Jr., Gerald M. Lawrie, George C. Morris, Jr., George P. Noon, Jimmy F. Howell, Rafael Espada and Richard R. Miller

EDITORIALS

- 868 Location of Myocardial Infarcts: A Confusion of Terms and Definitions. William C. Roberts and Julius M. Gardin

SPECIAL DEPARTMENTS

- 873 Letters to the Editor

Cardiac Catheterization and Intraaortic Balloon Counterpulsation—C. H. Bahn, F. Hagemeyer, J. D. Laird, et al. • Internal Systolic Time Intervals in Hypertrophic Cardiomyopathy—G. S. Uhl, J. P. Murgo, J. R. Logsdon, et al. • Pacemaker Treatment of Drug-Resistant Atrial Tachycardia—E. R. Arbel • Echocardiographic Estimation of Peak Left Ventricular Pressure in Aortic Stenosis—D. Bennett, K. U. Aziz, A. van Grondelle, et al. • Echocardiographic Patterns of Prosthetic Valve Malfunction—G. Jacovella, P. Giampaolo, G. Gambelli, et al. • Optimal Electrocardiography—G. E. Dower

- 878 American College of Cardiology News

CLINICAL STUDIES

- 885 **Right Ventricular Infarction Complicating Left Ventricular Infarction Secondary to Coronary Heart Disease. Frequency, Location, Associated Findings and Significance From Analysis of 236 Necropsy Patients With Acute or Healed Myocardial Infarction.** Jeffrey M. Isner and William C. Roberts
- 895 **Correlation Between Myocardial Structure and Diastolic Properties of the Heart in Chronic Aortic Valve Disease: Effects of Corrective Surgery.** Franz Schwarz, Willem Flameng, Jutta Schaper and Fritz Hehrlein
- 904 **Localization of Pericardial Effusion With Wide Angle Phased Array Echocardiography.** Randolph P. Martin, Harry Rakowski, James French and Richard L. Popp
- 913 **Ventricular Fibrillation During Programmed Ventricular Stimulation: Incidence and Clinical Implications.** Scott R. Spielman, Ardeshir Farshidi, Leonard N. Horowitz and Mark E. Josephson
- 919 **Value of a Noninvasively Induced Ventricular Extrasystole During the Echocardiographic and Phonocardiographic Assessment of Patients with Idiopathic Hypertrophic Subaortic Stenosis.** Gerald H. Angoff, Daniel Wistran, Laurence J. Sloss, John E. Markis, Patricia C. Come, Paul M. Zoll and Peter F. Cohn
- 925 **Effectiveness of Increasing Hours of Continuous Ambulatory Electrocardiography in Detecting Maximal Ventricular Ectopy. Continuous 48 Hour Study of Patients With Coronary Heart Disease and Normal Subjects.** Harold L. Kennedy, Vijay Chandra, Karin L. Sayther and Dennis G. Caralis
- 931 **Effects of Digitalis on Ventricular Myocardial and His-Purkinje Refractoriness and Reentry in Man.** Joseph Anthony C. Gomes, Malkiat S. Dhatt, Masood Akhtar, Clarita R. Carambas, David S. Rubenson and Anthony N. Damato

EXPERIMENTAL STUDIES

- 939 **Electrograms From the Canine Sinoatrial Pacemaker Recorded in Vitro and in Situ.** Marvin Cramer, Robert J. Hariman, Robert Boxer and Brian F. Hoffman
- 947 **Acute Coronary Occlusion in the Pig: Effect of Nitroglycerin on Regional Myocardial Blood Flow.** Albert S. Most, David O. Williams and Ronald W. Millard
- 954 **Two and Three Dimensional Display of Myocardial Ischemic "Border Zone" in Dogs.** Alden H. Harken, Clyde H. Barlow, Wesley R. Harden, III and Britton Chance
- 960 **Superiority of Propranolol Versus Propranolol in Protection Against Ventricular Fibrillation Induced by Coronary Occlusion.** David L. Pearle, Daniel Williford and Richard A. Gillis

METHODS

- 965 **Comparative Study of Two Methods of Estimating Sinoatrial Conduction Time in Man.** Günter Breithardt and Ludger Seipel

PEDIATRIC CARDIOLOGY

- 973 **Right Atrial Ultrastructure in Congenital Heart Disease. I. Comparison of Ventricular Septal Defect and Endocardial Cushion Defect.** Tuan Duc Pham, Andrew L. Wit, Allan J. Hordof, James R. Malm and John J. Fenoglio, Jr.
- 983 **Electrophysiologic Studies in Tricuspid Atresia.** Maria Serratto and Devkishin B. Pahlajani

STUDIES IN HYPERTENSION

- 987 **Systemic and Pulmonary Hemodynamic Effects of Saralasin Infusion in Hypertension. Predictability of Plasma Renin Status**

From Hemodynamic Changes. Sakti Mookherjee, Anis Obeid, Robert Warner, Gunnar Anderson, Robert Eich and Harold Smulyan

REPORTS ON THERAPY

- 993 **Long-Term Medical Management of Hypertrophic Obstructive Cardiomyopathy.** Martin J. Frank, Abdulla M. Abdulla and Mario I. Canedo
- 1002 **Prolongation of Cardiac Conduction Times by Intravenous Aprindine in Man.** H. Leon Greene, Philip R. Reid and Allen H. Schaeffer
- 1007 **Suppression of the Repetitive Ventricular Response: An Index of Long-Term Antiarrhythmic Effectiveness of Aprindine for Ventricular Tachycardia in Man.** Allen H. Schaeffer, H. Leon Greene and Philip R. Reid
- 1013 **Unilateral Stellate Block in the Treatment of Hypertension After Coronary Bypass Surgery. Implications of a New Therapeutic Approach.** Robert C. Tarazi, F. George Estafanous and Fetnat M. Fouad

REVIEWS

- 1019 **"Variant" Angina: One Aspect of a Continuous Spectrum of Vasospastic Myocardial Ischemia. Pathogenetic Mechanisms, Estimated Incidence, Clinical and Coronary Arteriographic Findings in 138 Patients.** Attilio Maseri, Silva Severi, Maurizio De Nes, Antonio L'Abbate, Sergio Chierchia, Mario Marzilli, Anna Maria Ballestra, Oberdan Parodi, Andrea Biagini and Alessandro Distanti
- 1036 **The Pericardium: An Essay on Some Recent Developments.** Relp Shabetai

DIAGNOSTIC SHELF

- 1044 **Demonstration of the Mechanism by Which Mitral Regurgitation Mimics Aortic Stenosis.** Elliott M. Antman, Gerald H. Angoff and Laurence J. Sloss

CASE REPORTS

- 1049 **Atypical Ventricular Tachycardia as a Manifestation of Disopyramide Toxicity.** Richard S. Meltzer, Edward W. Robert, Maureen McMorrow and Randolph P. Martin

EDITORIALS

- 1054 **Torsade de Pointes: An Addition to the Nosography of Ventricular Tachycardia.** Charles E. Kossman

SPECIAL DEPARTMENTS

- 1057 **Letters to the Editor**

Miranda and the Patient With Coronary Disease—D. B. Effler and G. G. Gensini • Acute Myocardial Infarction With Normal Coronary Arteries—R. C. Pasternak, R. W. DeSanctis, S. D. Gertz, et al. • Ergonovine Maleate, Angina-Like Syndrome and Coronary Spasm—J. P. Liss, Jr. and F. A. Heupler, Jr. • Cardiac Rupture After Myocardial Infarction—G. M. FitzGibbon, G. D. Hooper, H. A. Heggveit, et al. • Prognosis in Severe Unstable Angina Pectoris—R. A. Chahine, R. J. Luchi, H. W. Alison, et al. • Kussmaul's Sign in Pericardial Disease—D. H. Spodick and T. Mann • Application Site for Nitroglycerin Ointment—M. S. Hansen and P. W. Armstrong • Technique for Continuous Electrical Pacing During Pulse Generator Replacement—I. Bahadir, R. Koopot, E. B. Diethrich, et al.

SUBJECT INDEX: VOLUME 41

- Abstracts of papers
 - from 27th Annual Scientific Session of the American College of Cardiology, 353
 - author index to, 448
 - subject index to, 453
 - from Young Investigators' Awards competition, 970
- Adenine nucleotide translocase and carnitine in myocardial ischemia, 1209
- Afterload and ventricular function, 710
- Alpha and beta adrenergic blockade with labetalol in hypertension, 570
- American College of Cardiology
 - abstracts of papers
 - from 27th Annual Scientific Session of, 353
 - author index to, 448
 - subject index to, 453
 - from Young Investigators' Awards competition, 970
- affiliate membership, 467, 973
- calendar
 - of extramural programs, 196, 466, 627, 801, 972, 1324
 - of Learning Center programs, 195, 465, 626, 802, 971, 1325
 - committee appointments, 1978-1979, 1319
- education update, 606
- new members, 624
- president's page
 - cardiology: present status and future direction, 799
 - cardiology 1978 at Anaheim—welcome to the College's 27th Annual Scientific Session, 194
 - postgraduate education, 1318
 - reflections on progress achieved and future challenges, 464
- research training program, National Heart, Lung, and Blood Institute, 969
- Young Investigators' Awards competition, abstracts of five finalists, 970
- American Journal of Cardiology*, appreciation to reviewers for, 628
- Aminophylline and dipyridamole-induced coronary vasodilatation, 267, 279
- Amiodarone, new antiarrhythmic agent, 1005
- Anatomy of Ebstein's anomaly of the heart, 739
- Aneurysm, aortic
 - in anuloaortic ectasia, 482
 - wrapping of, 792
- Angina pectoris
 - (see also Chest pain)
 - after dipyridamole-induced coronary vasodilatation, 279
 - and coronary bypass surgery under age 40 years, 584
 - isosorbide dinitrate and nitroglycerin for, 82
- Angina pectoris
 - Prinzmetal's variant
 - and provocative test for coronary spasm, 631
 - atrioventricular block in, 621
 - unstable
 - coronary arteriography in, 204
 - randomized study of patients treated medically and surgically, 1291
- Angiogram, normal coronary, and myocardial infarction, abnormal platelet survival time in men with, 60
- Angiography
 - and natural history of normal coronary arteries and mild coronary atherosclerosis, 216
 - and R wave amplitude during treadmill stress testing, 846
 - biplane cine, in oblique projections, left ventricular volume estimated from, 726
 - contrast, versus radionuclide, 531
 - coronary, and hemodynamics in idiopathic hypertrophic subaortic stenosis, 476
 - in chronic pulmonary hypertension, 1150
 - in total anomalous pulmonary venous connection to coronary sinus, 597
 - radionuclide
 - and contrast ventriculography, 718
 - and left ventricular wall motion, 1230
 - to assess ventricular performance, 897
 - variability in sequential measures of left ventricular performance assessed with, 531
 - to determine ventricular volume, statistical considerations in, 351
- Anomalous pathway, propranolol and, 1061
- Antiarrhythmic agents
 - (see also specific drugs and Symposium on New Aspects of Antiarrhythmic Therapy)
 - new, 1005
 - pharmacokinetics of, 986
- Antiarrhythmic therapy
 - (see Symposium on New Aspects of Antiarrhythmic Therapy)
- Anticoagulant agents
 - and tissue valve replacement of prosthetic heart valves, 512
 - in acute myocardial infarction, 1315
 - in mitral porcine valve recipients, 508
- Anuloaortic ectasia and aortic insufficiency, 482
- Aortic incisura, valve origin of, 32
- Aortic insufficiency
 - and origin of second heart sound, 108
 - versus anuloaortic ectasia, 482
- Aorticopulmonary septum in persistent truncus arteriosus, 755

- Aortic regurgitation
 and aortic root dissection after coronary bypass surgery, 103
 and retrograde left ventricular catheterization, 893
 in anuloaortic ectasia, 482
- Aortic root dissection
 after coronary bypass surgery, 103
 in anuloaortic ectasia, 482
- Aortic stenosis
 amplitude of aortic component of second heart sound in, 830
 and aortic incisura, 32
 and origin of second heart sound, 108
 cusp separation in, 616
- Aortic valve
 as origin of aortic incisura, 32
 bicuspid, and asymmetric septal hypertrophy, familial study of, 956
 early systolic closure of, in hypertrophic subaortic and discrete subaortic stenosis, 823
- Aortic valve calcification and amplitude of aortic component of second heart sound, 830
- Aortic valve disease
 and aortic incisura, 32
 congenital, and hypertrophic cardiomyopathy, familial study of, 956
 myocardial structure and function in patients with, and postoperative results, 661
 rheumatic, nitroglycerin in, 302
- Aortic valve leaflets, fine fluttering of, in idiopathic hypertrophic subaortic stenosis, 823
- Aortography to differentiate functional and structural pulmonary atresia, 914
- Aprindine, new antiarrhythmic agent, 1005
- Arrhythmias
 (see also specific type and Symposium on New Aspects of Antiarrhythmic Therapy)
 after abrupt coronary occlusion, 1075
 after ergonovine maleate as provocative test for coronary spasm, 631
 after Mustard's operation for d-transposition of great vessels, 1104
 and conduction disease in idiopathic hypertrophic subaortic stenosis, 811
 asymptomatic, and ambulatory electrocardiographic monitoring, 996
 atrial, and sudden death in hypertrophic cardiomyopathy, 803
 digitalis serum levels and, 852
 electrical management of, 1025
 tocainide for, 703
 ventricular
 after intracardiac repair of tetralogy of Fallot, 552
 after permanent pacemaker implantation for atrioventricular block, 500
 body surface potentials presaging, 697
 central nervous system and, 516
 orally administered prajmalium bitartrate in acute and chronic, 577
 terminated with bursts of rapid ventricular pacing, 94
- Asymmetric septal hypertrophy
 in families with "malignant" hypertrophic cardiomyopathy, 1133
 inferior myocardial infarction as cause of, 817
- Atherosclerosis, coronary
 (see also Coronary artery disease)
 and aortic root dissection after coronary bypass surgery, 103
 and idiopathic hypertrophic subaortic stenosis, 476
 and plasma norepinephrine in congestive heart failure, 233
 mild, angiographic evaluation of natural history of, 216
- Atrial fibrillation
 and atrial pacing for conversion of atrial flutter in digitalized patients, 308
 and thromboembolism in mitral porcine valve recipients, 508
- Atrial flutter
 in digitalized patients, atrial pacing for, 308
 pacing and, 1025
 paroxysmal, self-initiated conversion of, 1119
- Atrial septal defect
 closure of
 abnormal right ventricular size and ventricular septal motion after, 295
 and surgical division of bundle of Kent in a patient with Ebstein's anomaly, 602
 measured during cardiac catheterization, 537
 noninvasive evaluation of left ventricular performance in, 487
- Atrioventricular canal, complete, primary repair of, in patients less than 2 years old, 906
- Atrioventricular junction, abnormal, in Ebstein's anomaly of the heart, 739
- Atrioventricular nodal cells and Wenckebach cycles, 244
- Atrioventricular nodal function after Mustard's operation for d-transposition of great vessels, 1104
- Atrioventricular nodal pathways, dual, electrophysiologic studies of, 1115
- Atrium, left
 electrocardiographic enlargement of, versus interatrial conduction defect, 618
 enlarged, and thromboembolism in mitral porcine valve recipients, 508
- Atropine, heart rate after, 793
- Auscultation, group teaching of, 333
- Author index to volume 41, 1325
- Bachmann's bundle electrogram for atrial mapping and study of supraventricular tachycardia, 1089
- Beta adrenergic receptors in congestive heart failure, 233
- Beta and alpha adrenergic blockade with labetalol in hypertension, 570
- Bethesda Conference Report: Tenth Bethesda Conference: Optimal Electrocardiography, 111-195
 Electrocardiography and electrophysiology are (or should be) friends, 119
 First the electrocardiogram—then what? A system for decision-making by computer, 115
 Introductory comments, 113
 Participants, 111
 Present status of computer interpretation of the electrocardiogram: a 20 year overview, 121
 The quest for optimal electrocardiography, 126
 Task Force I: standardization of terminology and interpretation, 130
 Task force IA: development of a data base for electrocardiographic use, 145
 Task Force II: quality of electrocardiographic records, 146
 Task Force III: computers in diagnostic electrocardiography, 158
 Task Force IV: use of electrocardiograms in practice, 170
 Task Force V: cost effectiveness of the electrocardiogram, 175
 Task Force VI: future directions in electrocardiography, 184
- Biopsy, ventricular endomyocardial
 diagnostic procedure or research tool, 965
 techniques for, 887
- Bioprobe for right and left ventricular endomyocardial biopsy, 887

- Blood cells
 - endothelial, in porcine valve prostheses after implantation, 1185
 - hypoxic and ischemic, lidocaine and, 872
- Blood flow
 - coronary
 - and length of coronary narrowing, 865
 - morphine sulfate and, 324
 - RO 2-2985 and, 63
 - coronary reserve, and myocardial perfusion imaging during coronary vasodilatation, 267, 279
 - regional myocardial, and ventricular refractoriness after coronary occlusion, 1083
- Blood pressure
 - arterial, monitored with modified intraaortic balloon catheter, 733
 - left ventricular end-diastolic, in normal subjects at rest and during supine and upright exercise, 52
 - pulmonary arterial, in children with complete right bundle branch block, 1264
 - pulmonary capillary wedge, and high risk subsets of acute myocardial infarction, 197
 - right ventricular, in functional and structural pulmonary atresia, 914
 - systemic, RO 2-2985 and, 63
 - systolic, decreased, during graded treadmill exercise testing, 221
- Blood pressure gradient
 - diastolic, and amplitude of aortic component of second heart sound, 830
 - intraventricular, in idiopathic hypertrophic subaortic stenosis, 476
- Blood pressure-time index, systolic, and myocardial oxygen consumption, 327
- Blood volume and labetalol in hypertension, 570
- Books received, 192, 968
- Bradycardia, sinus, and atrioventricular nodal gap conduction, 1115
- Bundle branch block
 - after coronary bypass surgery, 860
 - complete
 - and multiple intracardiac recordings during His bundle pacing, 1068
 - echocardiographic assessment of pulmonary arterial pressure in children with, 1264
 - functional, during supraventricular tachycardia, 1052
- Bundle branches, section of, in treatment of arrhythmias, 1035
- Bundle of Kent, surgical division of, and Wolff-Parkinson-White conduction, 602

- Carbidopa and ventricular vulnerability, 516
- Cardiac catheterization
 - measurement of atrial septal defect during, 537
 - subclavian approach for, with balloon-tipped pulmonary arterial catheter, 613
 - withdrawal of propranolol before, 778
- Cardiac index
 - after digitalis in cor pulmonale, 1299
 - and exercise testing in normal children, 1278
- Cardiac output
 - and high risk subsets of acute myocardial infarction, 197
 - in hypertension, 790
- Cardiac tamponade after right ventricular endomyocardial biopsy, 887
- Cardiokymography for quantitative analysis of regional ischemic left ventricular function, 1249
- Cardiology, international, progress report on, 623
- Cardiomyopathy
 - (see also specific type)
 - and plasma norepinephrine in congestive heart failure, 233
- Cardiomyopathy
 - hypertrophic
 - and congenital aortic valve disease, familial study of, 956
 - idiopathic, myocardial biopsy in, 965
 - "malignant," 1133
 - sudden death in, 803
 - versus discrete subaortic stenosis, 746
 - infiltrative, myocardial biopsy in, 965
 - quantitative radionuclide angiography to assess ventricular performance in, 897
- Cardiopulmonary bypass, insulin during, 1215
- Cardioversion, direct current, versus bursts of rapid ventricular pacing, 94
- Carnitine, protection of ischemic dog myocardium with, 1209
- Catecholamines
 - and abrupt cessation of clonidine therapy in hypertension, 1285
 - excretion, and labetalol in hypertension, 570
- Catheter
 - balloon, to measure atrial septal defect, 537
 - intraaortic balloon, modification of, 733
 - umbilical arterial, safety of, 288
- Catheterization, retrograde left ventricular, in patients with aortic valve prosthesis, 893
- Chest pain
 - (see also Angina pectoris)
 - and aortic root dissection after coronary bypass surgery, 103
 - and bridging of coronary arteries, 1305
 - and serum light chains in diagnosis of acute myocardial infarction, 641
 - angina-like, and provocative test for coronary spasm, 631
 - during treadmill exercise testing, 227

- Coarctation of aorta, serial echocardiographic profiles in infants with, 1270
- Collagen and structural changes in glutaraldehyde-treated porcine heterograft valves, 1159
- Computer analysis of left ventricular dynamic geometry, 1239
- Computers
 - decision-making by, and the electrocardiogram, 115
 - electrocardiographic interpretation and, 121
 - in diagnostic electrocardiography, 158
- Conduction
 - aberrant intraventricular, U wave and, 23
 - atrioventricular
 - and sudden death in hypertrophic cardiomyopathy, 803
 - in idiopathic hypertrophic subaortic stenosis, 811
 - tocainide and, 703
 - atrioventricular nodal gap, as manifestation of dual nodal pathways, 1115
 - His-Purkinje, in idiopathic hypertrophic subaortic stenosis, 811
 - intraatrial, in idiopathic hypertrophic subaortic stenosis, 811
 - lidocaine in hypoxic and ischemic cardiac cells and, 872
 - sinoatrial, hydralazine and, 763
 - Wolff-Parkinson-White
 - and surgical division of bundle of Kent, 602
 - in neonate, 559
- Conduction defects
 - (see also bundle branch block)
 - after Mustard's operation for d-transposition of great vessels, 1104
 - fascicular, after coronary bypass surgery, 860
 - interatrial, versus electrocardiographic left atrial enlargement, 618
- Conduction delay and Q-T interval changes in acute myocardial infarction, 684

- Conduction system in neonate, 559
- Congenital heart defects
(*see also* Pediatric cardiology)
atrial septal defect
 closure of, abnormal right ventricular size and ventricular septal motion after, 295
 measured during cardiac catheterization, 537
 noninvasive evaluation of left ventricular performance in, 487
d-transposition of great arteries, echocardiography to assess left ventricular outflow tract in, 543
patent ductus arteriosus in neonate assessed with serial echocardiographic contrast technique, 288
tetralogy of Fallot, His bundle electrogram after intracardiac repair of, 552
truncus arteriosus communis, surgical significance of coronary arteries in, 76
- Congenital heart disease
(*see also* Pediatric cardiology)
aortic stenosis
 and aortic incisura, 32
 noncalcific, and amplitude of aortic component of second heart sound, 830
cardiomyopathy
 congenital, and myocardial biopsy, 965
 hypertrophic, and congenital aortic valve disease, familial study of, 956
Ebstein's anomaly of the heart, pathologic anatomy of, 739
echocardiogram to assess pulmonary arterial pressure in children with, 1264
- Congestive heart failure
 and aortic root dissection after coronary bypass surgery, 103
 and atrial tachycardia, permanent coupled atrial pacing and, 336
 in "malignant" hypertrophic cardiomyopathy, 1133
 intravenous nitroprusside versus oral prazosin in, 925
 lidocaine in first hours of acute myocardial infarction and, 313
 permanent ventricular pacing for atrioventricular block and, 500
 plasma norepinephrine in, 233
- Contractility
 myocardial
 depressed, after prolonged ischemia, insulin for, 1215
 in atrial septal defect, 487
 latent reserve of, in acute ischemia potentiation, 523
 ventricular dimensions as index of, 655
- Contrast medium and ventricular function curve, 710
- Coronary arteries
 anatomy of, and arteriography in unstable angina pectoris, 204
 anomalous left, 614
 anomalous left circumflex, 1311
 collateral, after myocardial infarction, tortuosity as index of age and diameter increase of, 210
 hemodynamic significance of length of narrowing of, 865
 in truncus arteriosus communis, surgical significance of, 76
 left anterior descending, symptomatic myocardial bridging of, 1305
 normal, angiographic evaluation of natural history of, 216
 of ventricular septum, abnormal, in discrete subaortic stenosis and infective endocarditis, 746
 right, and surgery in truncus arteriosus communis, 76
 stenosis of, propranolol and, 689
 symptomatic myocardial bridging of, 1305
- Coronary arteriography in unstable angina pectoris, 204
- Coronary artery disease
(*see also* Atherosclerosis, coronary)
 ambulatory arrhythmia monitoring in, 996
 and anomalous left circumflex coronary artery, 1311
 and chest pain during treadmill testing, 227
- Coronary artery disease
 and decreased systolic blood pressure during graded treadmill exercise testing, 221
 and exercise testing in right bundle branch block, 670
 and myocardial oxygen supply:demand ratio, 327
 and myocardial scintigraphy with stress testing, 43
 and R wave amplitude during treadmill stress testing, 846
 and unstable angina pectoris, 1291
 isosorbide dinitrate and nitroglycerin in, 82,
 left main, and death after cardiac catheterization, 204
 morphine sulfate in, 324
 QRS complex and left ventricular ejection fraction in, 494
 ventricular dynamics during long-term digoxin treatment in, 937
- Coronary care unit
 cardiogenic shock in, 613
 late in-hospital ventricular fibrillation after discharge from, 674
- Coronary occlusion
 abrupt, arrhythmias after, 1075
 partial versus complete, propranolol and, 689
 ventricular refractoriness and regional myocardial blood flow after, 1083
- Coronary reperfusion in pigs, myocardial hemorrhage after, 259
- Coronary revascularization
(*see also* Myocardial revascularization and Surgery, coronary bypass)
 under age 40 years, 584
- Coronary sinus, total anomalous pulmonary venous connection to, echocardiogram in, 597
- Coronary spasm
 ergonovine maleate as provocative test for, 631
 provocative testing in ischemic heart disease and, 787
- Coronary steal after dipyridamole-induced coronary vasodilatation, 279
- Coronary stenosis
 and ergonovine maleate as provocative test for coronary spasm, 631
 assessed by myocardial perfusion imaging during pharmacologic coronary vasodilatation, 267
 hemodynamic significance of length of, 865

 - and infective endocarditis in Newfoundland dogs, 746
 - early systolic closure of aortic valve in, 823
- Subpulmonary infundibulum in persistent truncus arteriosus, 755
- Surgery
- aortic aneurysm, wrapping of, 792
 - cardiac transplantation, myocardial biopsy and, 965
 - coronary bypass
 - abnormal septal motion after, 619
 - and myocardial hemorrhage after coronary reperfusion, 259
 - aortic root dissection after, 103
 - direct method for determining regional myocardial shortening after, 1222
 - fascicular conduction disturbances after, 860
 - for symptomatic bridging of coronary artery, 1305
 - prophylactic, 790
 - reduction of sudden death by, 793
 - under age 40 years, 584 - for anuloaortic ectasia, 482
 - for aortic valve disease, myocardial structure and function and, 661
 - for arrhythmias, current status and future directions of, 1035
 - for atrial septal defect
 - abnormal right ventricular size and ventricular septal motion after, 295
 - measured during cardiac catheterization, 537 - for complete atrioventricular canal in patients less than 2 years old, 906
 - for d-transposition of great arteries, echocardiography before and after, 543
 - for idiopathic hypertrophic subaortic stenosis, 823
 - for subacute effusive constrictive pericarditis due to neoplasm, 781
 - for tetralogy of Fallot, His bundle electrogram after, 552
- Surgery
- for truncus arteriosus communis, coronary arterial anatomy and, 76
 - infarctectomy for acute anteroapical myocardial infarction with bundle branch block in coronary care unit survivors, 674
 - insulin during cardiopulmonary bypass, 1215
 - Mustard's operation for d-transposition of great vessels, electrophysiologic studies after, 1104
 - myocardial revascularization, hemodynamics of hypertension after, 564
 - prosthetic valve, porcine, 1185
 - after various periods of implantation, 1185
 - glutaraldehyde-treated, 1159 - thromboembolism in mitral porcine valve recipients, 508
 - valve replacement, tricuspid, and division of bundle of Kent in a patient with Ebstein's anomaly, 602
 - versus medical treatment for unstable angina pectoris, 1291
- Symposium on new aspects of antiarrhythmic therapy, 975-1044
- Contribution of ambulatory electrocardiographic monitoring in antiarrhythmic management, 996
 - Electrical management of arrhythmias with emphasis on the tachycardias, 1025
 - Introduction, 975
 - New antiarrhythmic agents. Amiodarone, aprindine, disopyramide, ethmozin, mexiletine, tocainide, verapamil, 1005
 - Pharmacokinetics of antiarrhythmic drugs, 986
 - Roles of psychologic stress and autonomic nervous system changes in provocation of ventricular premature complexes, 979
 - Surgical treatment of arrhythmias: current status and future directions, 1035
- Systolic time intervals
- and left ventricular performance in atrial septal defect, 487
 - and plasma norepinephrine in congestive heart failure, 233
 - and pulmonary arterial pressure in children with complete right bundle branch block, 1264
 - postextrasystolic potentiation and, 14
- Tachyarrhythmias, surgical treatment for, 1035
- Tachycardia
- and bridging of coronary arteries, 1305
 - atrial, permanent coupled atrial pacing for, 336
 - circus movement, and propranolol in preexcitation, 1061
 - electrical management of, 1025
 - paroxysmal supraventricular
 - and Wolff-Parkinson-White conduction in neonate, 559
 - clinical, electrocardiographic and electrophysiologic observations in, 1045
 - electrophysiologic approach to, 1123 - persistent, and hypertension after myocardial revascularization, 564
 - supraventricular
 - and Bachmann's bundle electrogram, 1089
 - in Wolff-Parkinson-White syndrome, 1097
 - mode of initiation of, 1052
 - ventricular, terminated with bursts of rapid ventricular pacing, 94
- Technetium-99m pyrophosphate for myocardial imaging in myocardial infarction, 39, 349
- Terminology, standardization of, in electrocardiography, 130
- Test, provocative, with ergonovine maleate, for coronary spasm, 631
- Tetralogy of Fallot and persistent truncus arteriosus, 755
- Tetrodotoxin and hypoxic and ischemic cardiac cells, 872

SUBJECT INDEX

- Thallium-201, myocardial perfusion imaging with, to assess coronary stenosis during coronary vasodilatation, 267, 279
- Thromboembolism
and retrograde left ventricular catheterization, 893
in acute myocardial infarction, 1315
in mitral porcine valve recipients, 508
tissue valve replacement of prosthetic heart valves for, 512
- Thrombosis, arterial, in men with myocardial infarction and normal coronary arteriogram, 60
- Tocainide
electrophysiologic properties of, 703
new antiarrhythmic agent, 1005
- Tolamolol and arrhythmias after abrupt coronary occlusion, 1075
- Total anomalous pulmonary venous connection to coronary sinus, echocardiogram in, 597
- Training programs, adult cardiovascular, 606
- Transmembrane action potential in myocardial ischemia, 943
- Transposition of great arteries, d-, hypertensive pulmonary vascular disease in, 921
- Tricuspid valve in Ebstein's anomaly of the heart, 739
- Triglycerides, serum, and hypercholesterolemia in young healthy adults, 590
- Truncus arteriosus, persistent, pathogenesis of, 755
- Truncus arteriosus communis
surgical significance of coronary arterial anatomy in, 76
versus persistent truncus arteriosus (communis), 755
- T wave
and exercise testing in myocardial ischemia, 943
and phase 3 repolarization, 23
- Ultrastructural studies
in aortic valve disease, 661
of changes in glutaraldehyde-treated porcine heterograft valves, 1159
of effects of propranolol on mitochondrial morphology during acute myocardial ischemia, 880
- UM-272 and arrhythmias after abrupt coronary occlusion, 1075
- U wave
and aberrant intraventricular conduction, 23
and exercise testing in myocardial ischemia, 943
- Valve disease, rheumatic heart, nitroglycerin-induced improvement in exercise tolerance and hemodynamics in, 302
- Valve prostheses
aortic, retrograde left ventricular catheterization in patients with, 893
glutaraldehyde-treated porcine, structural changes in, 1159
mitral, tissue valve replacement of, for thromboembolism, 512
mitral porcine, thromboembolism in recipients of, 508
porcine, structural alterations of, after various durations of implantation, 1185
- Valve vibrations
and amplitude of aortic component of second heart sound, 830
and musical murmurs, 952
as origin of second heart sound, 108
- Vascular resistance, coronary and systemic, and ouabain in patients without heart failure, 88
- Vasodilators in refractory heart failure, 925
- Vectorcardiography and body surface isopotential mapping to detect old myocardial infarction, 349
- Venous system, peripheral, sublingual nitroglycerin and, 931
- Ventricles
right
abnormal size of, after closure of atrial septal defect, 295
dilatation of, in Ebstein's anomaly of the heart, 739
shape of, 646
- Ventricular aneurysm and late in-hospital ventricular fibrillation with acute anteroseptal infarction and bundle branch block, 674
- Ventricular casts, left, and ventricular volume, 726
- Ventricular compliance, left, 617
- Ventricular curvature-thickness indexes, 646
- Ventricular dilatation and infarct expansion versus extension, 1127
- Ventricular dimensions
as index of contractility, 655
continuous, during supine exercise and recovery, 655
- Ventricular fibrillation
and bursts of rapid ventricular pacing, 94
and sudden death in hypertrophic cardiomyopathy, 803
late in-hospital, after discharge from coronary care unit, 674
sympathetic neural activity and, 516
- Ventricular fibrillation threshold, tocainide and, 703
- Ventricular function
and changes in systolic time intervals induced with postextrasystolic potentiation, 14
and computerized orthogonal electrocardiogram, 9
and plasma norepinephrine in congestive heart failure, 233
and radionuclide angiography, 718
and R wave amplitude during treadmill stress testing, 846
and ventricular topography, 646
assessed with quantitative radionuclide angiocardiology, 897
during long-term digoxin treatment in coronary artery disease, 937
hyperkinetic, in polymyositis, 1141
in children with coarctation of aorta, 1270
- left
in pulmonary hypertension, 1150
regional, ischemic, cardiokymography and, 1249
sequential measures of, and radionuclide angiography, 531
mitral valve E point-septal separation as index of, 836
regional, computer analysis of, 1239
right, and systolic time intervals after digitalis in cor pulmonale, 1299
- Ventricular function curve from single left ventriculogram, 710
- Ventricular geometry, left dynamic, computer analysis of, 1239
- Ventricular outflow tract
in "malignant" hypertrophic cardiomyopathy, 1133
- left
fixed versus dynamic stenosis of, 543
in d-transposition of great arteries, echocardiography to assess, 543
in idiopathic hypertrophic subaortic stenosis, 476
- Ventricular premature complexes in acute myocardial infarction, 678
- Ventricular pump failure and decreased systolic blood pressure during treadmill testing, 221
- Ventricular septal defect and persistent truncus arteriosus, 755
- Ventricular septal motion, abnormal, after closure of atrial septal defect, 295
- Ventricular septal thickness and "malignant" hypertrophic cardiomyopathy, 1133
- Ventricular septum
intact, and pulmonary hypertension, 921
thickened
in asymmetric septal hypertrophy, 817
in hypertrophic cardiomyopathy, 803

- Ventricular shape in chronic pulmonary hypertension, 1150
- Ventricular volumes assessed with quantitative radionuclide angiography, 897
- Ventricular volumes
 - determined from echocardiographic and angiographic data, statistical considerations in, 351
 - end-diastolic, and ventricular function, 710
 - left, estimated from biplane cineangiograms in oblique projections, 726
 - right, in atrial septal defect, 487
- Ventricular wall motion
 - after coronary reperfusion, 259
 - and mitral valve E point-septal separation as index of ventricular function, 836
 - left
 - and radionuclide angiography, 531
 - ejection fraction image as index of, 1230
 - segmental, and radionuclide angiography, 718
- Ventricular wall thickness
 - after propranolol in coronary stenosis, 689
 - posterior, in asymmetric septal hypertrophy, 817
- Ventriculogram, left, and ventricular function curve, 710
- Ventriculography
 - and delayed intraaortic balloon pumping in experimental myocardial infarction, 1202
 - and R wave amplitude during treadmill stress testing, 846
 - contrast, and quantitative radionuclide angiography, 718
 - left, and retrograde left ventricular catheterization, 893
 - radionuclide, and left ventricular wall motion, 1230
- Verapamil, new antiarrhythmic agent, 1005
- Videotracking, wall motion, and mitral valve E point-septal separation as index of ventricular function, 836
- Weight loss and management of hypercholesterolemia in young healthy adults, 590
- Wenckebach block during His bundle pacing, 1110
- Wenckebach cycles, atrioventricular nodal, electrophysiologic studies on, 244
- Wolff-Parkinson-White syndrome discovered in infancy, natural history of, 1097

 calendar of extramural programs, 163, 341, 529, 705, 882, 1064
 Learning Center, program calendar, 164, 342, 530, 706, 883, 1065
 new members, 339, 878
 President's Page: membership services, 336
- American Journal of Cardiology*, 20th anniversary, 3, 5, 9, 10, 11, 12, 13, 14, 17, 18
- Anemia, sickle cell, cardiac dysfunction in, 211
- Aneurysm, dissecting aortic, suprasternal echocardiography to diagnose, 291
- Angina pectoris
 and coronary bypass surgery, 308, 330
 and surgery for left main coronary artery disease, 124
 effort, unusual case of, 525
 myocardial imaging with thallium-201 in, 345
 remission of, 119, 520
 stable, coronary bypass grafting for, 183
 unstable
 coronary bypass grafting for, 183
 national cooperative study group to compare medical and surgical therapy in, 839
 severe, prognosis in, 1059
 surgery for, 629, 634
 "variant," and continuous spectrum of vasospastic myocardial ischemia, 1019
- Angiocardiography
 and coronary artery disease in young women, 41
 and criss-cross and superior-inferior ventricular heart, 620
 and mitral regurgitation mimicking aortic stenosis, 1044
 and S-T segment changes on exercise testing in prior myocardial infarction, 29
- Angiotensin II, endogenous, and saralasin infusion in hypertension, 987
- Anniversary, 20th, of *American Journal of Cardiology*, 3, 5, 9, 10, 11, 12, 13, 14, 17, 18
- Antiarrhythmic agents
 (see specific agents)
- Antihypertensive therapy and tetralogy of Fallot, 295
- Aorta, size of, in atrial septal defect, 545
- Aortic aneurysm, fortuitous rupture of, 862
- Aortic arch, interrupted, and malformations producing reduced blood flow to fourth aortic arches, 467
- Aortic regurgitation, exercise-induced left ventricular dysfunction in, 351
- Aortic root, dissecting aneurysm of, after coronary bypass surgery, 862
- Aortic stenosis
 congenital, secondary to dysplasia of congenital bicuspid aortic valves without commissural fusion, 102
- Aortic stenosis
 echocardiographic estimation of peak left ventricular pressure in, 875
 in functionally single arterial trunk, 800
 left ventricular pressure in, 690
 mitral regurgitation mimicking, 1044
 systolic time intervals to estimate pulmonary/systemic resistance ratios in, 810
 versus discrete subaortic stenosis, 283
- Aortic valve
 and second heart sound, 539
 congenital bicuspid
 and left dominant coronary arterial system, 57
 without commissural fusion, and congenital aortic stenosis, 102
- Aortic valve in interrupted aortic arch, 467
- Aortic valve disease, surgery for, 895
- Aortography after repair of coarctation of aorta, 97
- Apexcardiogram, slow filling period, rapid filling period ratio in, and coronary artery disease, 377
- Aprindine
 intravenous, cardiac conduction times prolonged by, 1002
 for ventricular tachycardia, long-term antiarrhythmic effectiveness of, 1007
- Arrhythmias
 in hypertrophic obstructive cardiomyopathy, 993
 intravenous aprindine and, 1002
 so-called right and left ventricular, in acute myocardial ischemia, 774
- ventricular
 precordial mechanical stimulation to induce, 425
 reduction of, with propranolol, procainamide and quinidine, 473
 tocainide and, 276
- Arteriography, coronary, and nitroglycerin, 517
- Atherosclerosis, coronary
 (see also Coronary artery disease)
 and death from ischemic heart disease in young Finns, 114
- Atria
 and peripheral conduction system, lack of connection between, 147
 in atrioventricular nodal reentrant pathway, 499
- Atrial extrastimulus technique and catheter position in initiation of atrial echoes, 738
- Atrial fibrillation, digitalis and, 570
- Atrial flutter, digitalis and, 570
- Atrial reflexes and hypotension and syncope with ventricular pacing, 137
- Atrial septal defect
 apex sector echocardiography to evaluate right atrium in, 733
 apparent reduction of aortic and left heart chamber size in, 545
 in transposition of great arteries, 692
- Atrial vulnerability, digitalis and, 570

- Atrioventricular block, congenital, and corrected transposition of great arteries, 147
- Atrioventricular dissociation and hypotension and syncope with ventricular pacing, 137
- Atrioventricular pathways, accessory
 - catheter position and initiation of atrial echoes with atrial pacing and premature stimulation in patients with, 738
 - spectrum of regular tachycardias with wide QRS complexes in patients with, 828
- Atrium
 - left, extracardiac tumor compressing, and large left atrial tumor, cross-sectional echocardiographic diagnosis of, 853
 - right
 - apex sector echocardiography to evaluate, 733
 - ultrastructure of, in congenital heart disease, 973
- Atropine and sinus nodal recovery time, 524
- Axis deviation, left, in chronic bundle branch block, 551

- Beta adrenergic blockade
 - and protective effect of propranolol, 217
 - in ischemic heart disease, 372
- Biopsy, endomyocardial
 - and diagnosis of cardiac sarcoidosis, 143
 - right ventricular, in mitral valve prolapse, 557
 - transvascular, in infants and small children, 453
- Blood flow
